CHANGE OF ADDRESS

Mrs Sarah Fulmudge
Brighton

1138 Market St.
Seattle Wash. 1-9-29.

Dear Aunt Sarah & Cousins —
My thoughts seem to wander to-day
far away, to that country where
the last time I remember seeing
you & I am wondering how
you are & how you look, if your
hair is grey - if your eyes are bright
if you are fat or thin, if you
live in a beautiful house with
lots of pretty things around, if
you have lots of pretty pictures
on the walls, if you have lots of
pretty dishes - Yes, I believe
you have all of that, if I
remember right - for you were
nice - & I liked my Aunt
Sarah very much then.

But what has become of our
great correspondent who would
write once a year. we miss
him -

I shouldn't wonder if he
hasn't attractions some where
else & he hasn't time for his
little cousin & his old Uncle
& Aunt.

Well Aunt, another year is going
& it will go fast for us. we will
not accomplish all we would like
to do, I don't think I ever do.
all I would like to do in one
year - for there is lots of reading
I would like to do & there is lots
of things for the house I would
like to make - and so on but
what does it matter - I have
all I want to do or can do
right now.

Father is sitting in his rocker
by the stove asleep & the fire
will go out if I don't get up & put
some wood in - I can make
quite a racket, he won't hear
me - & if he were awake he
wouldn't see me, unless I
stepped in the light of the window
but he is very well other ways.
and Mother is quite helpless
she sits in her rocking chair
most of the time but she can
not stand up on her feet &
not any use of one arm. but other
ways very well. and I am
very happy I am here to take
care of them.

Both Mother & Father are very happy & contented of course they have their little spells ^{of} ~~might have done better~~ ^{he thinks he} regrets especially Ta, but they soon forget & go on patiently waiting for the grim reaper. They have their songs & are as happy as can be. & we have our three meals a day - sometimes we get up too late to get three meals - & right now at this time of year it doesn't get day light till about 9, & it is dark at 5, sometimes at 4. but the weather is not cold & we have no snow this year & we are very thankful for snow ~~does~~ not agree with the country here or the people in habitants for the ground is too warm & soon we have only slush.

We hear sometimes from Helen. Helen & Aunt Elta. Isn't it wonderful that Aunt Helen is so smart after all the years that she was an invalid.

Well Aunt this is quite a long
letter to you for my first.

Now would it not be well to
call Ray or Roy which ever
one it was who used to
write to ~~you~~ once in while
on the carpet & see how
it is he des'nt write to
his old people away out
west. - or I would like
to have a letter from
my Auntie.

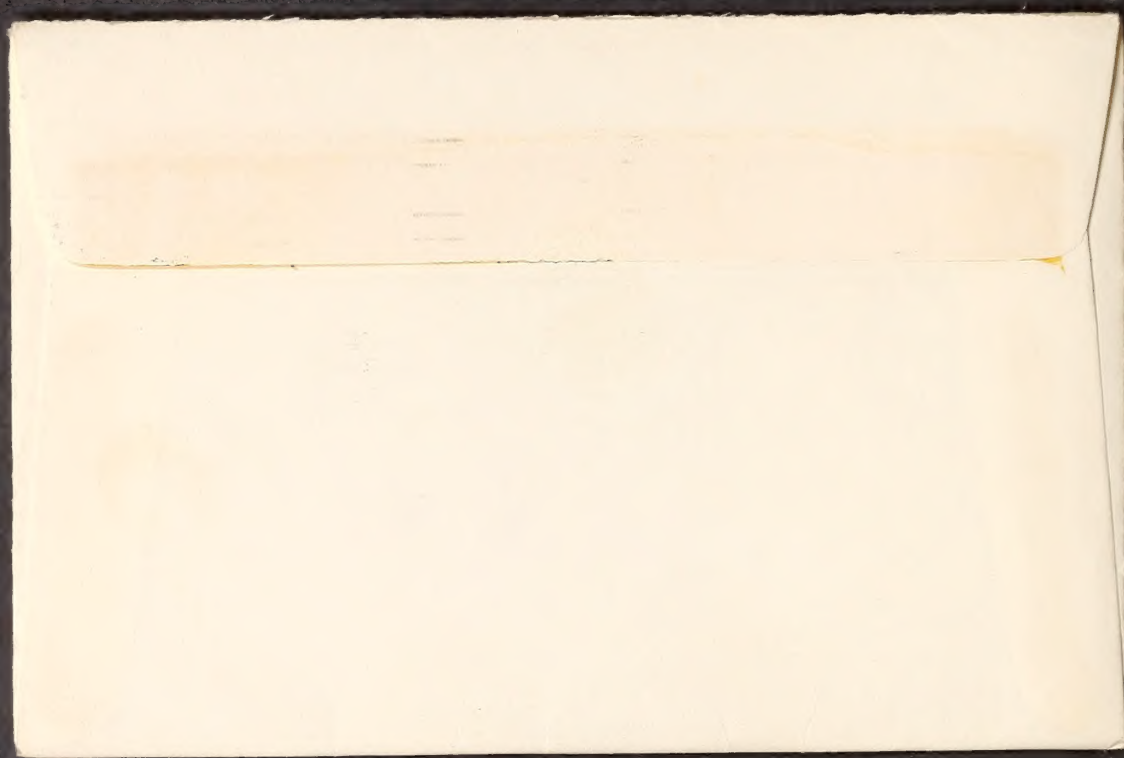

Bye Bye with
lots of love & best of
wishes for the New Year.
Sincerely -
Lemna.

Received Cards. Thank very much.
Love to Roy & Ray. P-

Dear Ray:-

Received your letter
and thanks for all the
nice things you said about
us.

What a wonderful way to
go as Roy did, it is always
a shock to the family, but it
could be a blessing too. I
hope when my time comes I
could go the same way.

I wrote to British Columbia
for dates of Florence's and
Wilmott's deaths and will
let you know when I
received the information.

The homes now a day are
made for pianos, after they
get the U. S. radio, He-Fi,

you know any beginner you
would like to give the piano
to, do so.

I am expecting our two
youngest grandchildren, Barbara
& Diane, down today for four
days so they inform me, they
are five and six and they
will entertain things up here
a bit. School is over for them.
When they are together they
get so absorbed with each
other no one else matters.

I hope the deal goes through

Ray you do whatever you
want with the piano. In
fact I had forgotten about
it. When Elva was small
we bought her a Spinet and
when she went to Georgia
she took it with her and
had no place to put it and
had to sell it.

she had a rule that cousins
couldn't speak to each other
during dancing classes.

Are you having this
cold weather and wind?
Some change from the 89-92
degrees of last week.

If we get to Canada this
summer and you are around
we shall call on you, most
of the time in the last few years
you have been out of town.

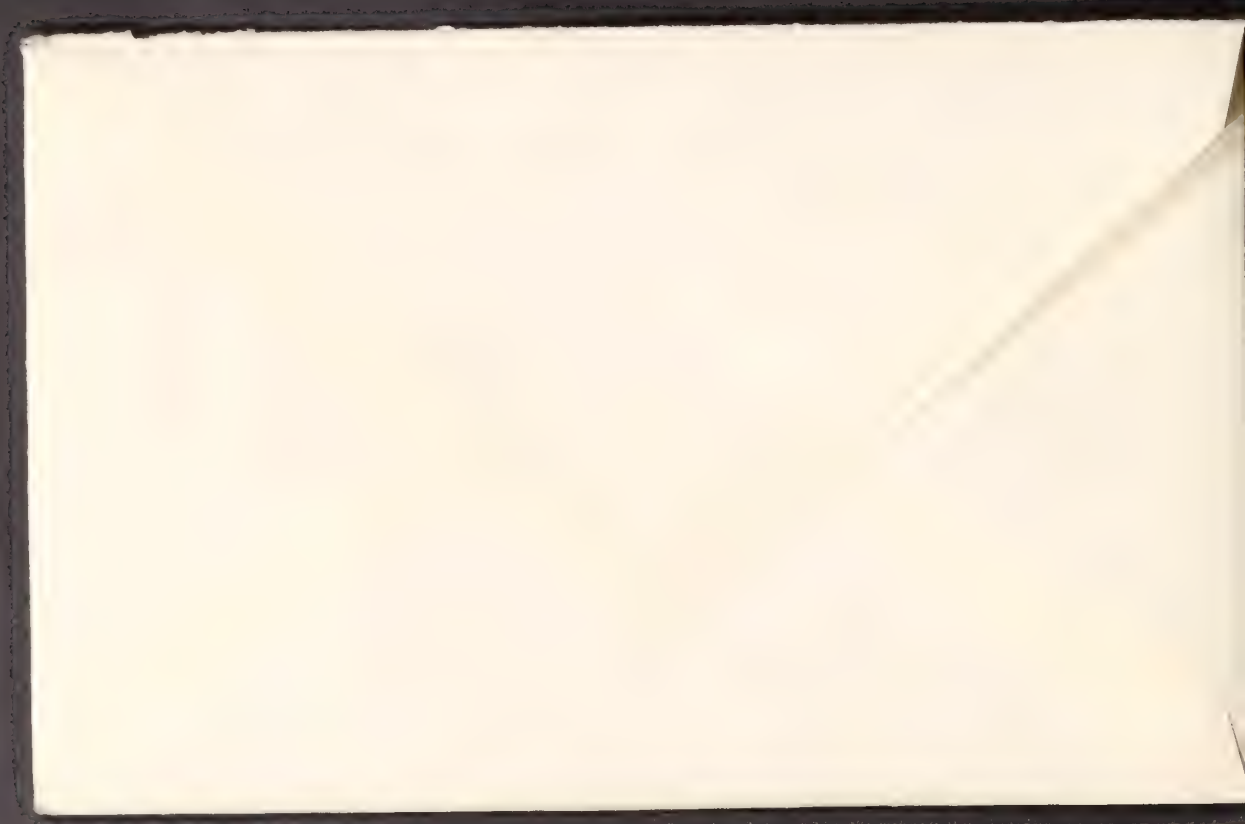

If you ever get to Rochester
we hope you will come
and see us.

Dear Ray:-

Received your lovely letter and card while in New York. We all appreciated your words of sympathy very much.

It was a terrible shock and I think I was only two weeks before that we were all together in New York for the first time since Dad died 32 yrs ago. We have seen each other quite regularly but never all at once & we made quite a fete of it.

I was talking to Al last night at midnight and he said Gladys was on her feet and took a few steps with help. The Dr. said she had to step on her feet. He said they had tapped

her lungs three times in the last two days but I understand that is customary when the lung is punctured.

Wilfred called me tonight as I had received a letter from her nurse. This nurse is a girl who graduated with Gladys ^{from Hampton} and they have been great friends ever since and a friend of us all. She went out to be with Gladys, and Al said last night that she gave Gladys a great lift. He also gave more particulars of how the accident happened. They had just gone off the pavement on a dirt road and in a blinding sand storm, it was very slippery and the car swerved & the truck struck. Hazel was thrown out and instantly

Ray I didnt expect to ramble on
to make such a long letter, but
we did so appreciate your comforting
words. Thanks so much for your
nice letter. Love Vera.

killed, Al was thrown out on other side and was unconscious and Gladys was wedged in the car and had to stay there until help came but was conscious all through. She was terribly depressed, blamed herself because she coaxed Hazel to go with them, but we, and all of Hazel's friends thought it a wonderful thing for Hazel. She had so many friends, belonged to so many clubs and two Alumn one in Pittsburg and one in New York and they all used the same expression "she was so loved". Wilfred is keeping the house and Anah says she won't leave Wilfred, he needs her. She was heart broken but took it all out in work. She scrubbed floors, carried things from attic to cellar to

garage and would get real winter.
 of course tried to stop her. She will
 be 88 next Tuesday. We are all
 worried when the car comes.

I was badly needed there but
 they think Gladys can be moved from
 there to a hospital here in Rochester
 in two weeks time, so I had to
 come back and prepare from this
 end.

Hazel was so enjoying her retirement
 she was taking trips to Florida,
 Virginia and shorter ones. She
 planned on going to Europe this
 next spring. She had another, her
 Social Security + Pension ^{that} she made
 the same as when she worked and
 she was high salaried.

Dear Ray:-

Gladys came home from the hospital yesterday. She is doing very nicely but tires easily. Her arm and shoulder are very stiff or frozen as the Dr. calls it. She was taking therapy in the hospital and tomorrow she goes to the Dr's office for treatments. They plan on going to Florida as soon as the Dr. thinks she can stand the trip by train. Coming from B.C. they had a nice smooth plane ride but from New York to Rochester it was very rough and she thought it would tear her to pieces. so she wants no more planes. Ike and Wilfrid plan on coming up before they go but not for Christmas. I am so behind in my xmas letters and cards. Also I haven't done any Christmas shopping yet. I have

gone to the hospital nearly every day with
Al and consequently nothing was
accomplished!

I had a rather sad experience today. I
received a Christmas gift from Hazel, "The
Readers Digest". She has given it to me for a
Christmas present for years and she must
have renewed the subscription before she
left on her trip.

What a wonderful fall we have
had this year; and still is. But it
is due to change any time although
they prophesy now a mild winter.
Can't be too mild for me.

Do hope Ray you have a very nice
Christmas and a Happy New Year.
Gladys said she had a lovely letter
from you but she went up to writing
as yet. With love Vera.

Dear Ray:-

I haven't heard a word about you in a year. I don't believe you have sold your house or Eva would have mentioned it. Emma Snider was here this summer and she said she hadn't seen you for a long time. I felt heart broken when I gave up my home but I have a real cute apartment here at Rogers and I love it. I have living room, bedroom, kitchenette and bath. I have no time to get lonely. I am down stairs a lot and they are coming in here. It is a very nice

I have been going a lot also. Was to New York and Philadelphia in June. In July I flew to Denver to see Elva and family. Danny had just returned from four months in Turkey. Then in October I was in Ohio for a week and again for Thanksgiving. I did so want to go to Canada but too late this year, will have to wait until Spring.

Glady and Al are retiring, they leave Alaska Dec 23rd. Going to North Carolina or Virginia to buy a house and have their furniture sent, and while waiting for their furniture will do their visiting.

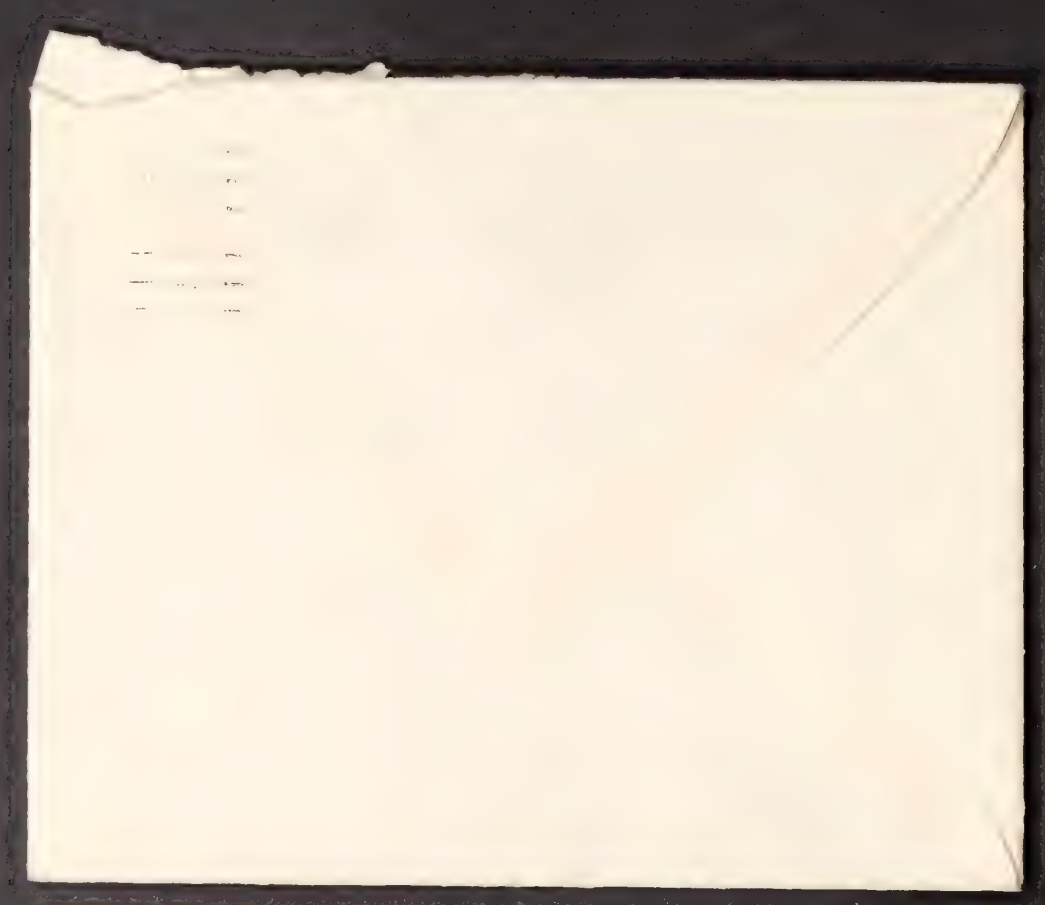

There have been a number of deaths
around Brighton and Smithfield of
people I used to know. Eva
writes me about those.

I do hope you have a very

Thanks so much for
your kind letter & sympathy.
It was a shock to us as Willie
had been so much better lately.
He had been having trouble
with his back but for thought
that was cleared up. But I thank

So anyplace I wish to go the girls can take me. Please to thank you Ray for for your kind advice and I certainly appreciate it.

Dear Ray

I ever will be I have not been well
since Samuel Wright passed away I was
alone in the house in it was after dark
it was a dreadful shock I never shall
forget it and never will get over it I
have heart trouble the Lord give it
a wonder I had not gone I have to do
quite a little work but I have to be
careful but I am glad I am no worse
but it meant a great deal when I had to
give up the best friend I had to
I sold off everything I had and now

two small rooms and do my own work I feel the best
that way but this winter I am staying with a friend
but is alone it helps me out with my food and my
food too but I hope my rooms and go home Sunday.

I am glad your mother to make all the folk they
are enjoying a hard time with Aunt Sylvia
- I know because her hands full and cannot
tell how much longer she may live.

I wanted to come and see you all so bad last summer
but I hardly felt able I could go to Toronto and back
for one hundred & thirty dollars and good for 90 days
I thought that was reasonable but I thought I did not bother
myself.

We have had a miserable winter due to much rain and
wind I will be glad when I come home then I am going
home and take a rest I do like to be home now.

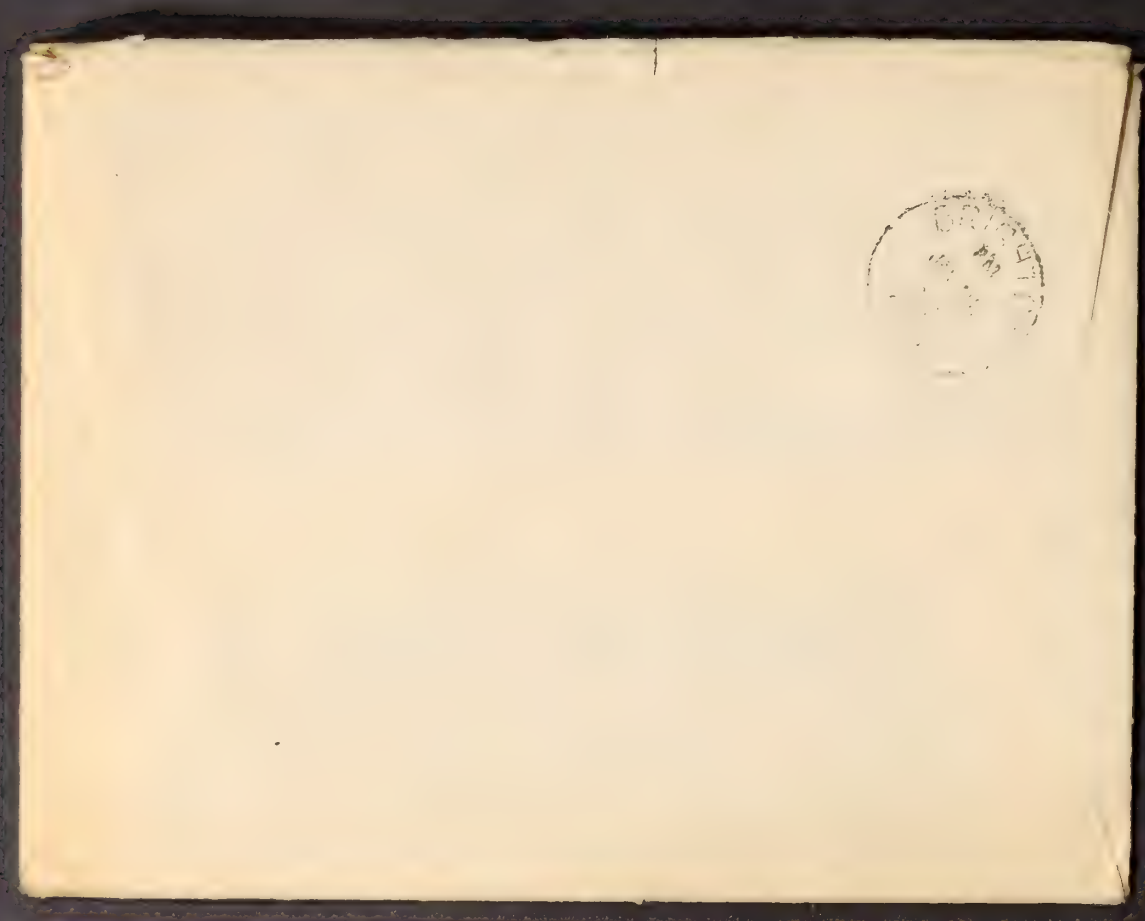

I do think it is nice you can be with your mother
Blanch Cook lives two blocks from my room and has very nice
people around it. They can be one of them is going to school.

Well I cannot think of any more to write so will close
and hope to hear from you again with love and best wishes.

It so she has never married,

the Rogers were great for not

getting married. Old maids like

some one with you & not be a

lone like it - alone. But I rather

like to be a lone, at first it was

rather hard but I don't mind

so much now. I don't like to be

out of a night & come in to a

lone & cold house.

I am well & feeling fine

am getting fat, with such a

little to do, - go & come & &

please, I have several nice friends

and they - very come to my place -

for a walk, or - no. not stay here

alone, sometimes it - go but I like
some pretty well and then I like to
be sure - keep my friends, sometimes

they send in haste for me to come,

Dear Ray:

Christmas again how
the time flies. The first two
years after Grille died time seemed to go so
slowly but this year has slid by.

When Eva was over this fall she said
she saw you once in a while and you were
fine. I also had a lovely visit with Emma
under this summer.

I am spending the winter here at Rogers.
Maize is nursing and I can be here when
the children come home from school and have
dinner ready for them at night.

Thelma wrote me that Ida Rogers was dead.
Guey Wade (Potts) wrote Jean Rogers. I wrote
both Ida's husband and Adrian but have
received no answer to date.

I had a nice visit last December with
Leah Rogers, Helmer's daughter, she was on her
way to North Carolina to get her Chaplainship

She is a missionary nurse and was on
Sabbathical leave. She was a very dignified
& lively woman about 50. We were all very
impressed with her.

Gladys & Al are still in Alaska. The Dr. wishes
Gladys to try the Alaskan winter. They are so
situated they can leave in a hurry if
Gladys' health demands it. If she can get
through the winter, they may stay until
next fall.

Eloa, Danny & children are in Texas. Danny has
been teaching Intelligence. They leave four
days after Christmas for Montgomery Alabama,
where Danny will be taking a course at the
University. They will be there until 15th April
& then to Denver Colorado where the
Intelligence school is being moved.

A new Merro Christmas Ray and all
good wishes for the coming year.

My dear Emily & Annie Ray

Received your small letter
letter and will wait you longer be-
fore answering it, but + finding my
ink is all dried up, so if you
will please excuse I will
proceed.

Was glad to hear from you and
always glad to hear from you
at Christmas time. Give if
you to remember us.

We are all pretty well but
poor Mother. She is quite help-
less does not suffer much
but is weak. She keeps
in her bed most of the time.

Father thinks if Ann could stand
the trip and he would be fine
for you & your mother to make
up at night. For you think
who could? & how is her
health?

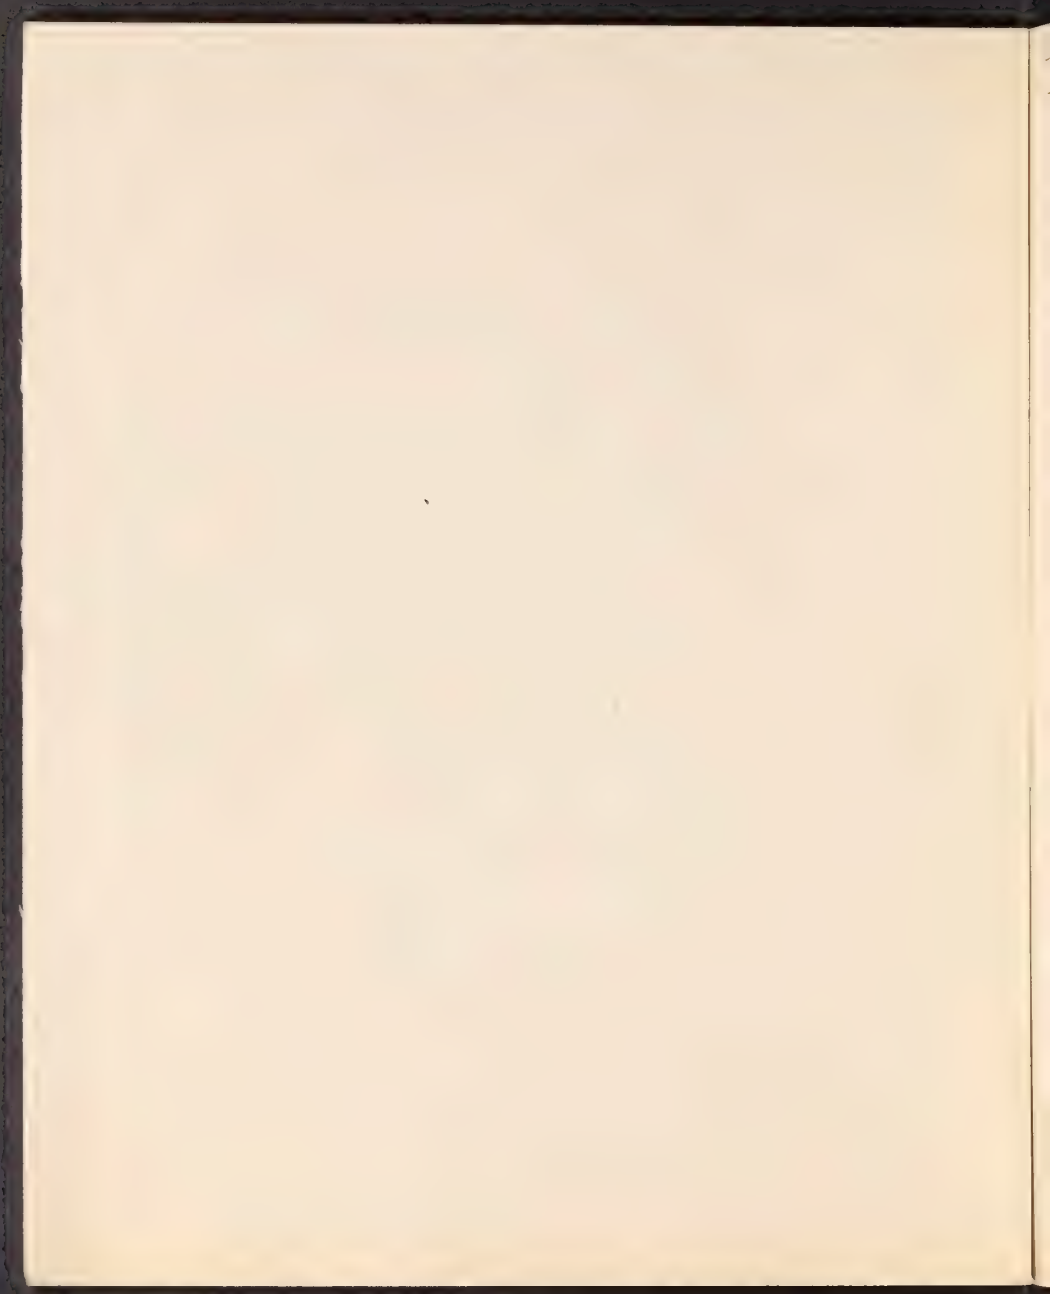

Father keeps quite well, a little
hard of hearing & his eyes poor
but other ways he is very good
of course he says he is gradually
getting weaker every year
but don't let him fear him saying
I tell him as he thinks so he will
be. He likes to call me an old
woman but tell him I am not
an old woman. People now
days do not get old - you are
as old as you think! Don't
you agree with me?

us in rather close quarters but
then we won't mind that - we
will just visit - only it won't
be know when you ^{are} coming
I am glad of your plan -

Blanche has lots of music
up to date & I have some
but it is mostly old. I am
sending lots of it to the Salvation
Army. Perhaps you had better
bring some.

I believe she had better
bring a warm coat dress
as the weather is not so
warm here.

Yours very truly
John W. Brown

Blanche / my daughter is married
has two nice little girls 5 & 6 yrs
just now they have the whooping-
cough. So must stay at home
can't come over to Grandmother
as they say. They live a mile
or blocks away.

Yes the Dr will probably be gentle
to come - this getting old is
a sad thing
Grand Vida was in to see us on
Sunday morning, she is not so
well - bad cough. I heard little
if there are quite a number of
people in the City from all
over the world. The National
Worship Hall Council.

If you should decide to make
it out here I wish you would
let me know & when you start,
I would like to make it as

MERRY CHRISTMAS

HEALTH TO ALL

Seattle Wash. Dec 19. 30

To My Dear Auntie & Cousin

Well Cousin I have been
a long time since I have heard
from you but then I suppose
you have lots to do. If Auntie
is sick, but I hope she is not.
I have plenty of sickness
here and I don't have much
help. for I feel it can't afford
it to be - I mean I am
lame - I'm tied up, don't get
out much. on my feet all
day just go & go. waiting on
the folks. I pray that I may
be given strength to bear it
all till the end. but sometimes
I am afraid I can't. Blanche
comes & helps me one day a week

111. All another Christmas will soon
be here, just a few more days.
I suppose you are preparing
for a big dinner - Blanche
& her family & the little girls
Phillis, Margaret & her husband -
will be down. and I should
have a Christmas tree, for I just
love Christmas trees, but then there
are all the decorations & so on
so why should I give myself
the bother, spending my time
as well as my money.
Blanche always has a big tree
for the children.

There will be Christmas trees
this year in the Parks & along the
highways. There were a few
last year. but I did not get to see them.
so I can't tell you what they
are like.

I think it was Pa's liver that was
giving him trouble but it seems to be all

11. I expect that seems a lot for
her to do - away from her house
& her social duties. but it's -
really not much help for me
I generally ^{on that day} go into the city to
do my shopping & pay bills.

I am very thankful tho.

My, I would rather hear from
you just as often & write all
this. for it seems only sad news
that I have to write.

As we get along in years &
get old - which is the sad part of
life - we can't expect any
thing else.

Da. has been very sick but
is better now; took sick in Aug.
& it was kept some time.
I hardly know what to do
with him self, so it makes
many steps for me as he
is blind it is gets lost in house,

Right again. Thanks to God.

Do. write & tell us how Auntie is,
How I wish you & Auntie had your
home out here, so we could visit
back & forth. relatives mean
more to me than strangers.
& as you know we have no
relatives here, we get lonesome
for them.

There are days & days I
don't go out side of the door
I have to stay in & cozy with
the folks.

Mother has not been as well
as usual but is feeling some
better.

We are having lovely weather
not much rain & no cold.

Give Auntie our love also
Love from Father & Mother & hope
she will enjoy her Christmas
With Love from Emma

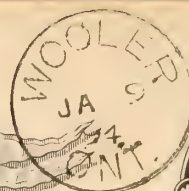

& a Merry Christmas to you,
Please Remember us to your mother & c.

told me they had a present
for me and I am anxious
to get it. When I am

Dear Cousin —

Your letter received so long ago and I am sorry not to have answered before. but I have not found time to answer any of my correspondence this summer. I am sorry but I think duty to the folks come first. —
Soon as I will be through then I hope to have as much time to read & know what to do with it. Then I can write letters & do what I please. I wonder if it will be happier — I think not.

For I find it a pleasure to help the folks. It is sad to see them helpless. That one can't do enough for them.

Well dear Ray you are having a lot of trouble too.

I do hope Auntie does not suffer — for that is when it hurts — to have to stand by

and see them suffer so & not
be able to help them. if she could
only close her eyes & go to sleep
& not wake up what a blessing
it would be. it is pray &
hope that will be the way
Mother & Father will go. just
go to sleep. I know it will be
a terrible shock and I tremble
right now but it can't be helped
it has to be gone through -

Father wants to go, he is so tired
no more pleasure in life for
him. he is just stumbling
around. you know he can't see
very well.

Father thinks the time is going very
fast - he don't get up very early &
of course it is not long before it is
getting night. he sleeps up stairs
& he thinks he has such a good
bed, as comfortable as it -

I have bought a very pretty lot in
Washelli Park. says on a slope facing
the east - that is probably where
the folks will lie. These things
are hard to do but I think it
better to do them before the last
moment.

Well Ray gave my love to dear Auntie
+ tell her I am sorry she has
to be sick - we all are sorry
father feels badly about it - &
he sends his love to her.

Blanche will be down soon.
She comes every Monday &
helps me or stays with the
folks while I go some where.
But poor girl she don't realize
how hard I have it. She
has not seen the bitter side
of life yet. She has such a
good man.

We are having delightful weather
warm like summer.

I suppose it is hard for Aunt
Helen & Aunt Etta to get along
they are getting old. I need help.
It is so sad to grow old.

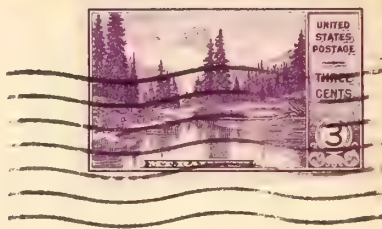

I pray the Lord will be good
to me when I am old. but
there I don't want to be old.
I am going to stay young
& gay. if my heart is young
it won't matter about the
years.

You never say anything about
Abraham Mabee. don't she ever
go to see you. or don't you
ever see him. I don't hear
from her very often.

Well Ray cheer up & do all
you can for dear Auntie. I
know you are doing all you
can. & you will be blessed with
a clear conscience. of a duty
well performed. So Bye

Bye for this time.

With lots of love to dear Auntie.
and your own dear self

Dear Cousin Ray. -

The ~~blissful~~ Christmas
Season has passed and another
year 1935 is in the making - I hope
it brings a bountiful supply of
Good to All the World.

Well I have been having
snow - considerably this fall, here
and there & then home for a few
days & off again.

My friends say why
stay home, just to be home some
so they insist on me going, so
it is all right with me but I
would feel badly if I imposed
on their kind hospitality & over-
stayed my welcome.

I have just returned
from a three weeks visit to living
on Tashon Island - one of the
many beautiful Islands in Puget
Sound.

I think it is 30 mi. long & 6 wide

Perhaps you remember when I was married
I went to live on an island, it was 7
mi. long & from $1\frac{1}{2}$ to $3\frac{1}{2}$ mi. wide. I was
to be surrounded by water, but rather than
some I always have to catch a boat, when you
want to go any place. As I missed the
boat when I want to live at my home

I enjoyed my friends come my and
as it is close to the water, I had to
swim, when I swam in the swimming in
10 feet deep water I was my head in, see
right down on the water - see the boat
chucking by - very pretty.

Will you what have you been doing with
yourself & your time this past summer.
Let us see - The last time you wrote you
were getting material for the family
tree. How did it come out, I hope
sometimes to have the pleasure of
reading it.

Well I found your two last letters
& have just been reading them. Oh how I
wish you could have known
him, he was a credit to the Foye family.
I was always proud of him. I find him
straight 6 ft tall - 6 ft 10 in. in his stockings
I was living. Had a good memory, was
very interesting. He was the best I
if he could have had his right to him he
would have had many more work.

If they had he could have stayed as
long as I am here & could have been
happy. So funny that I dreamed about
Pa. you are doing fine to keep your mother
with you so long. you are giving her

good, yes, I know,

I enjoyed the Pictures you
sent of her, would like some
more if you have them also
I yourself if you don't mind
I have them to spare.

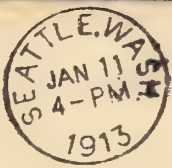

I promised Aunt it would write
to you but am not able to find
his address, I wish Aunt would write
to me again, did enjoy her letter.

Dear Aunt Mollie's travelling is
gone, I see it just makes me
feel terrible not to be able to see them
if it only lived now.

I expect you have been taking
stock & must be nearly there. So
I will be looking for a better
right place.

as Papa says. For
this time with old J. Love to
my & see Aunt Sarah and
your own dear self. From

Dear Cousin Ray:

so you think that I have been neglectful - & I that the same of you. Now I will start the New Year right by sending you a letter. We received your Xmas. letter and it pleased my grandparents greatly to hear from their old home.

You should be out here to play. The weather is great. This morning, when I went to Sunday School, the sun was shining, the buildings all covered with frost and the air so bracing that it made me

feel like dancing. I did
sing a little. It was
splendid for walking
but it did get cold.

There is a small pond
near our house, caused
by the filling in of the street
and when I came home
it was lined with small
boys. It had frozen quite
solid.

But as I have heard so
much of the weather where
you live I don't suppose
this little appeal in behalf
of our climate will have
any effect.

My grandfather says
he thinks it will snow
before the day is over.
You can't imagine

what now means to the
Child who has spent his
life in the Puget Sound Co.

Have you been sleigh
riding much and do you
take the girls? Is that too
personal — I only wanted
to know in case I ever
come back there.

Has anyone told you that
I am working? I was
tired staying at home and
so took the best thing I
could find. Which is —
fitting ladies' shoes in
a high class dry goods
store. I began about one
month before Xmas. and
intend to stay only until
something better offers.

Will you spend an
enjoyable Xmas. Things
were very pleasant here, also
very unchristmas like.

I always tell what I rec.
for Xmas. so here is some
of my list. Pink silk opera
bonnet, photograph, umbrella,
~~and some~~, two bottles of
perfume, Japanese box, cake
of soap and coat hanger and
a lovely picture.

I have a cousin out here
who is Captain of a tug and
he takes pictures, postcard
card size. The picture
was from him - enlarged
from a postcard, and colored.
It is a scene on the
Pacific Ocean.

5.

Now you have play grounds
where you live. I think I have
them all over the U.S. and
the one I attend is the first
one built west of Chicago.

It is only a large ground
with a gate across it, which
can be used for football
in winter, two tennis courts
and two sets of swings,
bars, ladders, poles and
slides for boys and girls.

In the center is a large
house or "gym" which
is used during the winter.

We have such lovely
times. Mama and I attend
for a while and we enjoy
it but Grandpa is — I shall
I say old-fashioned — he

can't see where the good
comes in and thinks it
a waste of time & money.
So as far as I can see
he has to pay for it any
way, as it is him by
the city, so as it is free
of charge I might as well
enjoy it.

They have been holding
a mid-Winter fair for four
days beginning Jan. 1st.
I went the 11th night as
it was my birthday and
I had a very good time.
Mayor Coffield of Seattle
spoke and as I had
never seen him or
heard him it was
quite a pleasure. There
were other pleasant
features on the program, him

too.

Friday night Mama
and I went to the Moore
Theater.

I have heard that Bert
Van Dicklin is back here.
I shall see him, tell him
for me, that I have a "wonder
piece with him. We certainly
have saved this family
a lot of worry.

I suppose that Mary Ann
has arrived home by this
time.

But you know that
Harry Baxter was up
my home and Ryeland
is working in Portland.

We have not heard from
him since he left 1882.

Is Blanche well! I
never hear from her
but it is my own fault.
Somehow I can't write
my when I take a
break.

I will close now with
best wishes from all for
a prosperous New Year.

Your Cousin
Blanche.

Dear Cousin Ray & dear, dear Auntie.

You know I have only two aunts in this world. and I can't tell you how much I would like to see them.

This Fall I had such an urge to quit everything and go somewhere. but my head told me no. When you are alone as I am, it is rather difficult to solve the problems.

You probably don't know that I am not living at father's home but in my own home. I came up here over a year ago - it is miles & miles from father's home, it is like being in another city, I knew no one.

This house was always kept rented and when this family who had lived here 8 yrs. & had 7 children moved out I moved in, after it had been made presentable by Carpenters & paperhangers. I thought I could retain one room upstairs as a house keeping room & rent the rest. where I have been renting it that way, just now it is not working out so well. There needs to be another bed room & bath downstairs then that would be complete & I should have upstairs. Most renters need two bed rooms,

Ray, how are you getting along with your family tree? I said that before the girls that you were writing the family tree. Margaret wanted to know if she would be in it. Did you find out when it was born & where? You know I have no record of it. Maybe Grandmother had it in her bible.

Well, Ray aren't you married yet? you must surely have a girl. Better tell me about her.

The last month I have been trying to hunt a job and do you know I almost believe it would be easier to find a man, for they do smile at you and there are so many girls looking for work. Just thousands turned out from schools.

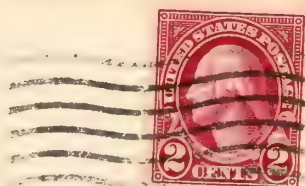

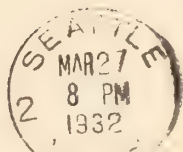

Well do write & tell me all the news. Can't you send some pictures of yourself & of Auntie.

Does it look as tho we were to have another war?

Blanche & the girls are well but Mr. Cooke was hurt and is not so well,

Lovely Emma, and
write soon.

Dear Cousin Ray & Dear Auntie. -

This is Easter-Sunday morning, a dull dark morning & raining. it matches my feeling for I am under a cloud.

Mother is about the same. sleeps quite a lot - & feels more comfortable in bed than sitting up.

Father is sleeping just now. He suffered a slight stroke yesterday morning from his left elbow to hand. That shows there is a small clot ^{of blood} on the brain. I hope it will pass away.

Dear old Daddy he was so good. did not want to make any more trouble than he could help. He had to get up nights so much & that was too hard for him, it took his strength, & in the morning his leg gave away from under him & he went down on the floor.

He has tried to live a good life & remember his God
He prayed a great deal. even in his sleep &
could hear him say to my Mother, his only
regret was that he did not begin sooner
in life to serve his Maker. But he loved
to pray & hear the word of God & I know God
will take him home, for he was good.

He was a man who very seldom went out
evenings; always home with his paper & books
reading; he read the Bible through once ~~or twice~~
on it more for he could quote lots of it.

O, if any thing happens to Pa, I am going
to miss him terribly. For he has been the
only one it could talk to & reason things out.

I hope Auntie is quite well again. and your
own dear self. Will you ever forgive me for
not answering that lovely letter of yours you
sent me. I tried many times to answer. but could
not, this old friend of mine would not respond, so you
it up entirely. but I read & re-read your letter many
times I wish you could write more often. I
wait for an answer. Give my love to Auntie &
tell her as gentle as you can about Pa for he may
not last the week. Write soon.

Love, Emma.

Dear Ray, You will get an awful surprise to get this letter from us. Adrian was up and made us a visit and has just returned home, we had quite a talk over old times, and old friends and of course you were included, he said he had been in touch with you and you were making up our family tree and would like to get the names of our children and this if any. I don't know if you will remember my wife or not she was at your place shortly after we were married and remembers you quite well, but you may remember about 1904 or 05, any way That's quite a while back and lots of things have happened since. Thornton and Mayme are here in Victoria, Thornton has his own place and Mayme is with us Leah is in Ethelbert-Man. (a nurse) and is head of Mission Hospital there run by the United Church from Toronto, Stuart is of course married and stationed at Ft. Murray Air Port in the Army Telegraph Operator or Radio Operator you'll see both. I hope this is the information you were short. I would prize very much if at any time you could send me a copy of any of our list of ancestors that you have compiled. You know it would be nice to pass on to a son and his children to keep up. If you ever come up here Ray be sure and see us. Wishing you best of everything Wilmet Marie + Mayme Rogers

Dear Ray:-

No doubt you were surprised
when I called you today.

Grady was here last week and
we were wondering if you would
care about coming over for Elva's
wedding. You know Ray we are
not a very large family as far
as relatives are concerned and
we like to hang on to the few
we have, and ^{at} thought perhaps
you might feel the same way
as we know you are interested in
the family as a family. Then Elva

Eva is coming from Southfield and we are hoping Eva & Betty can come but Eva is afraid that on account of the late season the farm work will be in a rush then.

Eva is being married on Sat. evening Sept 6th. Danny goes to Syracuse University and Eva plans on going also this fall.

Accordingly to Emily Post I can't send out the invitations until the end of this week so if you could come and change your a week after. Wilfred has to go right

said she wondered if you would play as it would be nice to have someone in the family to play the wedding march. But if you do not like to play, that is all right. But we would love to have you come and have a visit with us all.

Glady would be here for the wedding as she has her orders to go to Alaska, leaving Seattle the 23rd of this month. Her husband is already there. Viola is coming a week before and Hazel is staying a week after. Wilfred has to go right

mind about playing. Is would be lovely and if you would rather not play, is would still give us time to make other arrangements, if we could know by the end of this week.

Roger is being married also in November to a graduate nurse whose home is in Syracuse. Danny's home is in Elmira but he goes to Syracuse University. He is up nearly every weekend, Marge is here on her time off and half the time the house "swarms" with young people. But they are both grand and I am proud of both Rogers & Elva choice.

As Ever, Vera

My Dear Ray,

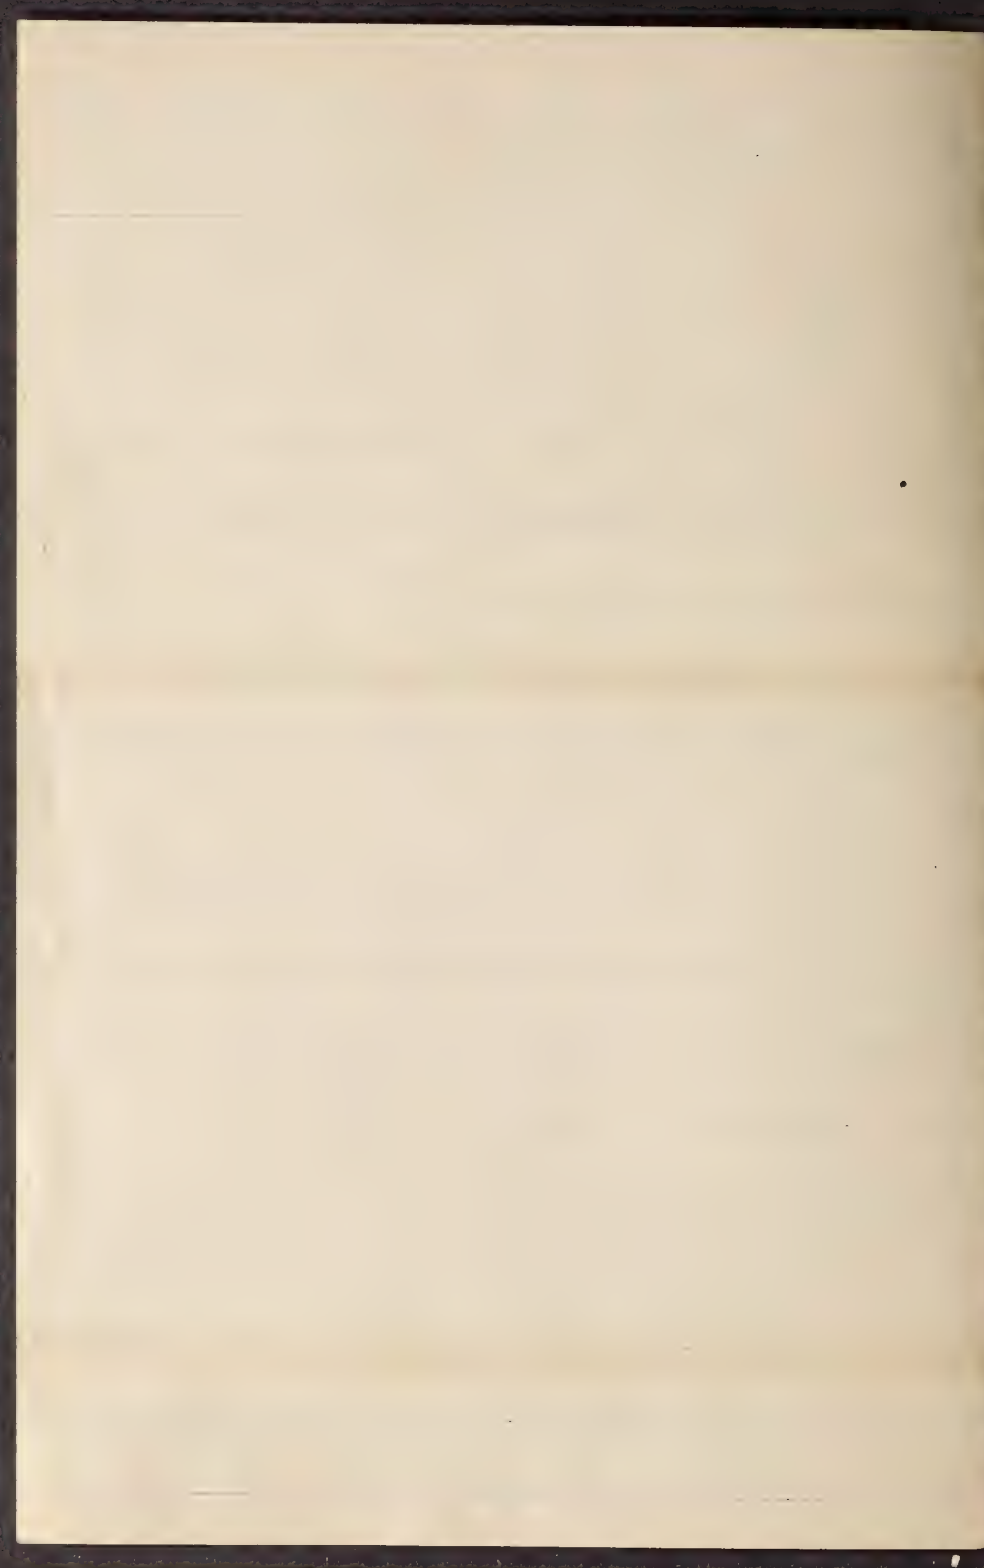

I do extend to you my sincere sympathy. You were so kind to her which is some thing you will never regret - as I know by experience for I waited on her ^{my wife} until one month previous to her passing on. after that she was in the hospital. Probably I told you. I spent the last $\frac{1}{2}$ hr alone with her, I told the Matron I would ring her if I needed her & I just kissed her out of this world. I revived her to consciousness as I know a persons brain will live for 12 hrs after death & I spoke such sweet-kind things to her all being prompted by some one. not my self & at the last. I kissed her all over that little head, I dedicated a little memory to her which is very fitting for you too.

Men may subdue kingdoms
They may leave behind them a name

compare to - The fragrant memory of
a faithful friend, I still live on
with that in my memory. Forever,
Adrian.

My Dear Aunt Sarah & Ray.

Well I just guess tomorrow is your birthday & many many happy returns of the day. I should like to drop in if only to give you a birthday kiss. Next Monday Mrs Steele & I have a birthday. She is my eldest step daughter 16 yrs younger than I am. & we always celebrate them together but it looks different this year as Harold & she had to take Patricia (4 years old) in to Lloydminster to be operated on for appendix. I got the little girl a hand sleigh about a month ago when I was in Lloyd. for Xmas. I gave it to her when I came home so she could have some fun with it before cold weather & now I'm glad I did. I wrote a birthday letter to Ethel, she will get it yesterday so you can see Ray. I have not only my own obligations but I like to try & fulfill them as my wife would do if she were here. In fact Bill's wife used to say. she never seen a family as united as ours.

It's a very cold day out & I'm writing this before dinner. I went over to the other place this A.M. & led up the Range cattle & Eddie done the chores here.

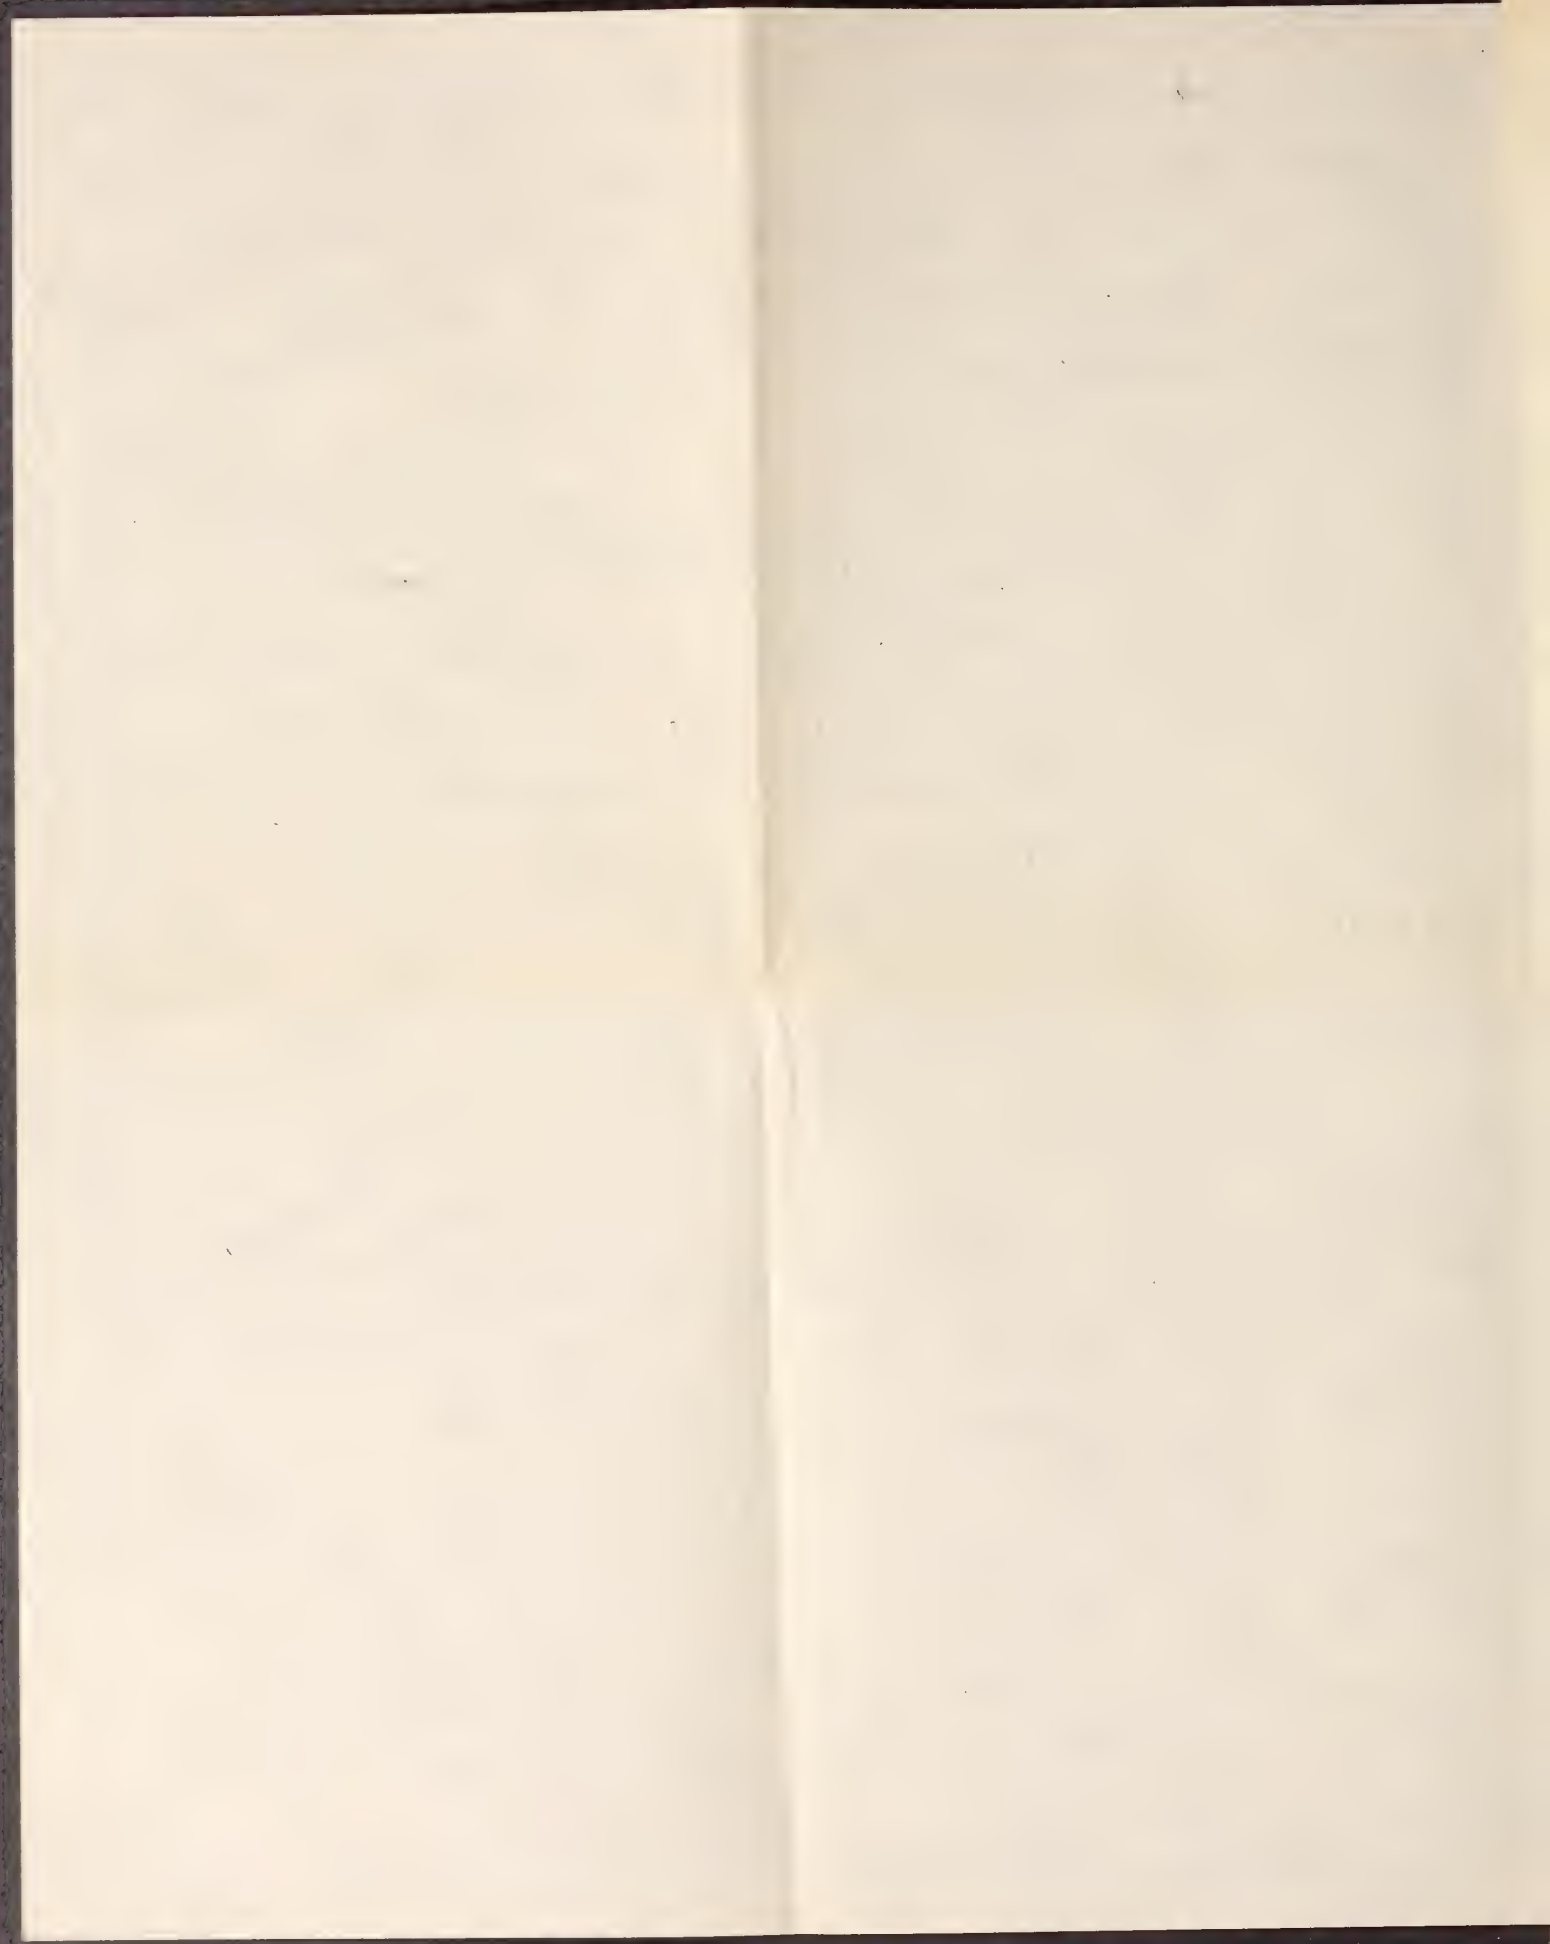

It was ² 3 1/2° below & I don't do any more than I have too.

I ~~as~~ filled in your Questionnaire what I could & am sending it up to Wilnot to be completed. Let see that you get it as soon as possible.

Did you ever know that John Rogers who preached at St. Pauls Cathedral in London. in 1553 was the 1st martyr to be burned at the stake by Queen Mary. I do not know as to whether he was one of our ancestors or not. There is a vacant space of 45 yrs. In 1602 our ancestors were driven out of Eng. & they went to Holland. under the leadership of Rev. Robertson. & in 1620 one of the younger ones John Rogers came over on the Mayflower. From there on you know as much as I do. Just who was your mother's father I believe one of eldads Uncles.

I met a Robt Rogers (deceased now) in Lloyd. That came from Bath Dnt. ask your Mother if she might know him, he may of been 5 years younger than her. I could still find his daughter if I tried she lives some where south of Lloyd on a farm & used to work in P.O. Lloydminster. Well this will be all for this time so
with a Merry Xmas Yours Sincerely Adrian

TO THE REGISTRAR-GENERAL
PARLIAMENT BUILDINGS, TORONTO

IN REPLY REFER TO

DEPARTMENT OF PROVINCIAL SECRETARY
REGISTRAR-GENERAL'S BRANCH

November 15, 1945.

Dear Sir:

I have your letter of November 7th and beg to reply as follows:

1. Our records of births and deaths begin with 1869 so that we would be unable to furnish any information in respect to John Rogers.
2. Re: Ann Gerany (Weese) Rogers,—same as 1.
3. Re: William Rogers and his wife, Rheuma Porter,—we shall be glad to search any period in the 70's or 80's you wish to name at the rate of 50¢ for each three year period and let you know whether or not there is a record of the death in Murray Township.
4. Re: Adolphus Rogers and his wife, Minnie Wheeler. If the years 1896 and 1897 are to be searched, the fee would be 50¢. In respect to their three children, fees should be sent as outlined above.

Death records in the early years do not show the names of the parents of the deceased nor the date of birth.

Yours truly,

R. B. W. Allen
Registrar of Vital Statistics.

I see Mr. Freeman. Thanks for letter. I must have misread it. I have father of 1811 with birth dates of our immediate family. I see that Abundma Forbes was Catherine Rogers a sister to Uncle James Rogers I never saw him but had seen ~~at~~ ^{my} ~~him~~ a number of times last time I was 11 years old. mother told me. ~~Abundma~~ ^{my} married at age of 16. died 1881. at the age of 81. 5 sons, 3 daughters there may be more. if I could get more Cleveland to refresh her memory. However this still would not be a clear record. I expect to spend a day with him next week to discuss the Engg. Thomas again.

Sincerely yours.

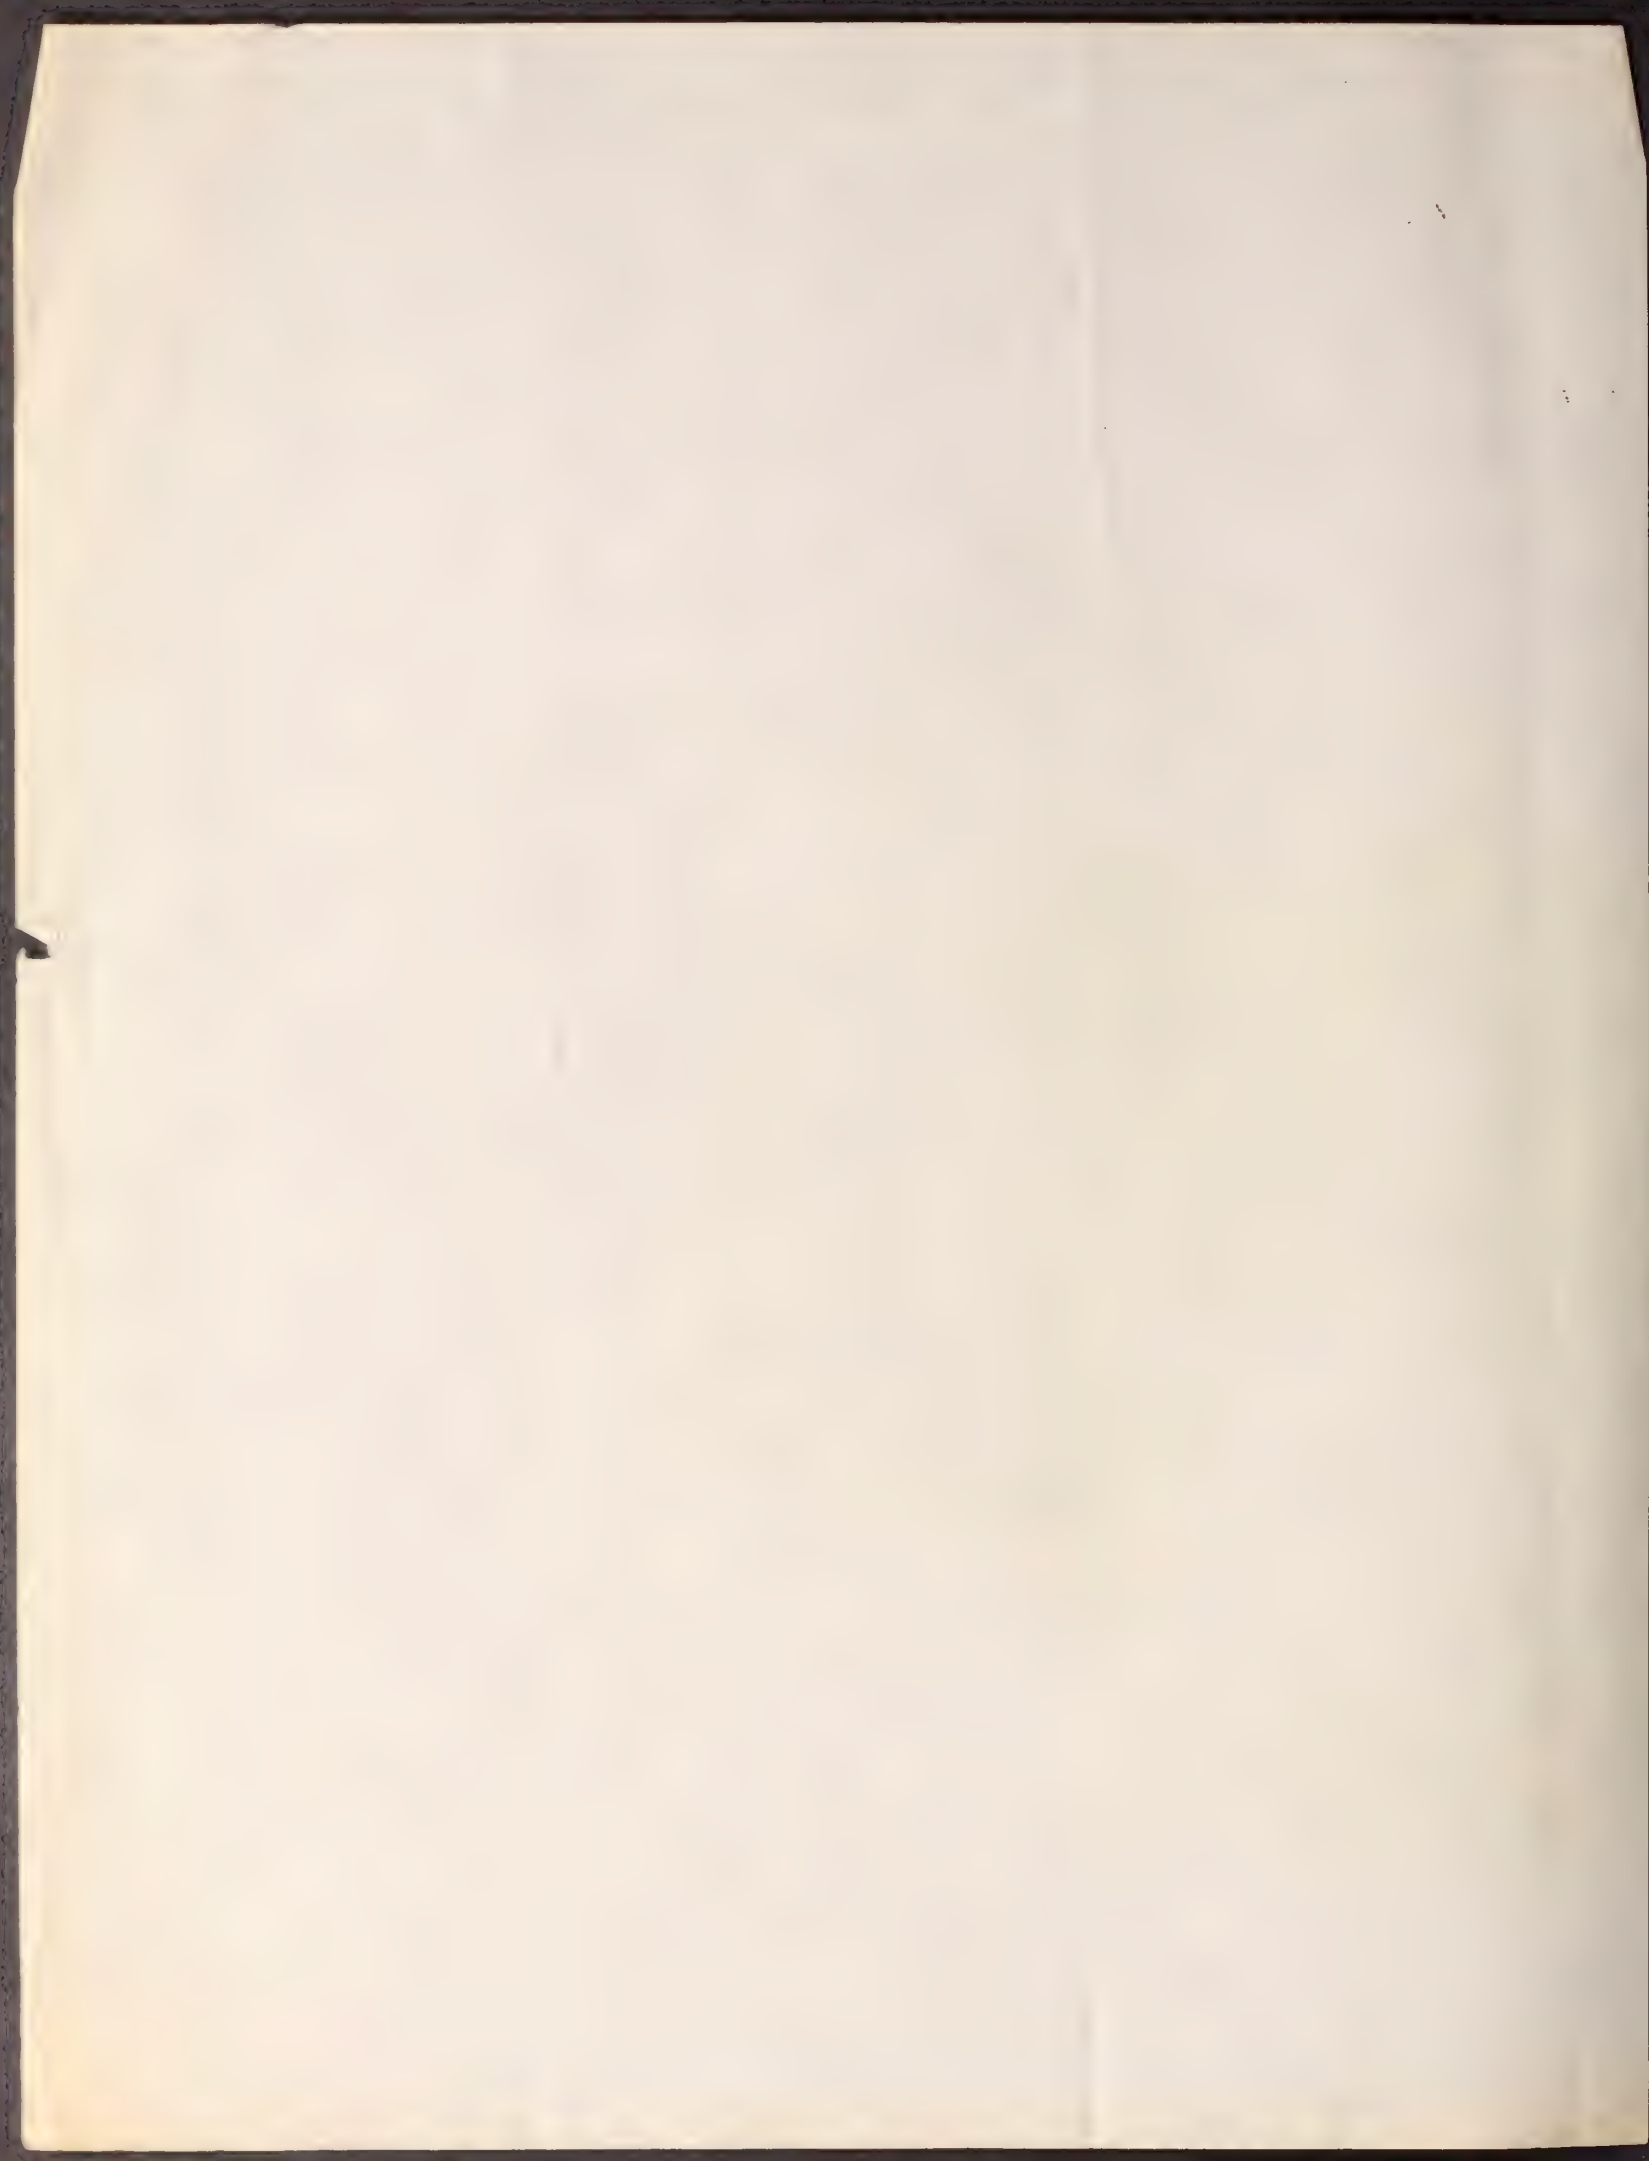

Mrs. Mabel Engert.

N BREAD AND C

Wednesday Nov. 15th. 1944.

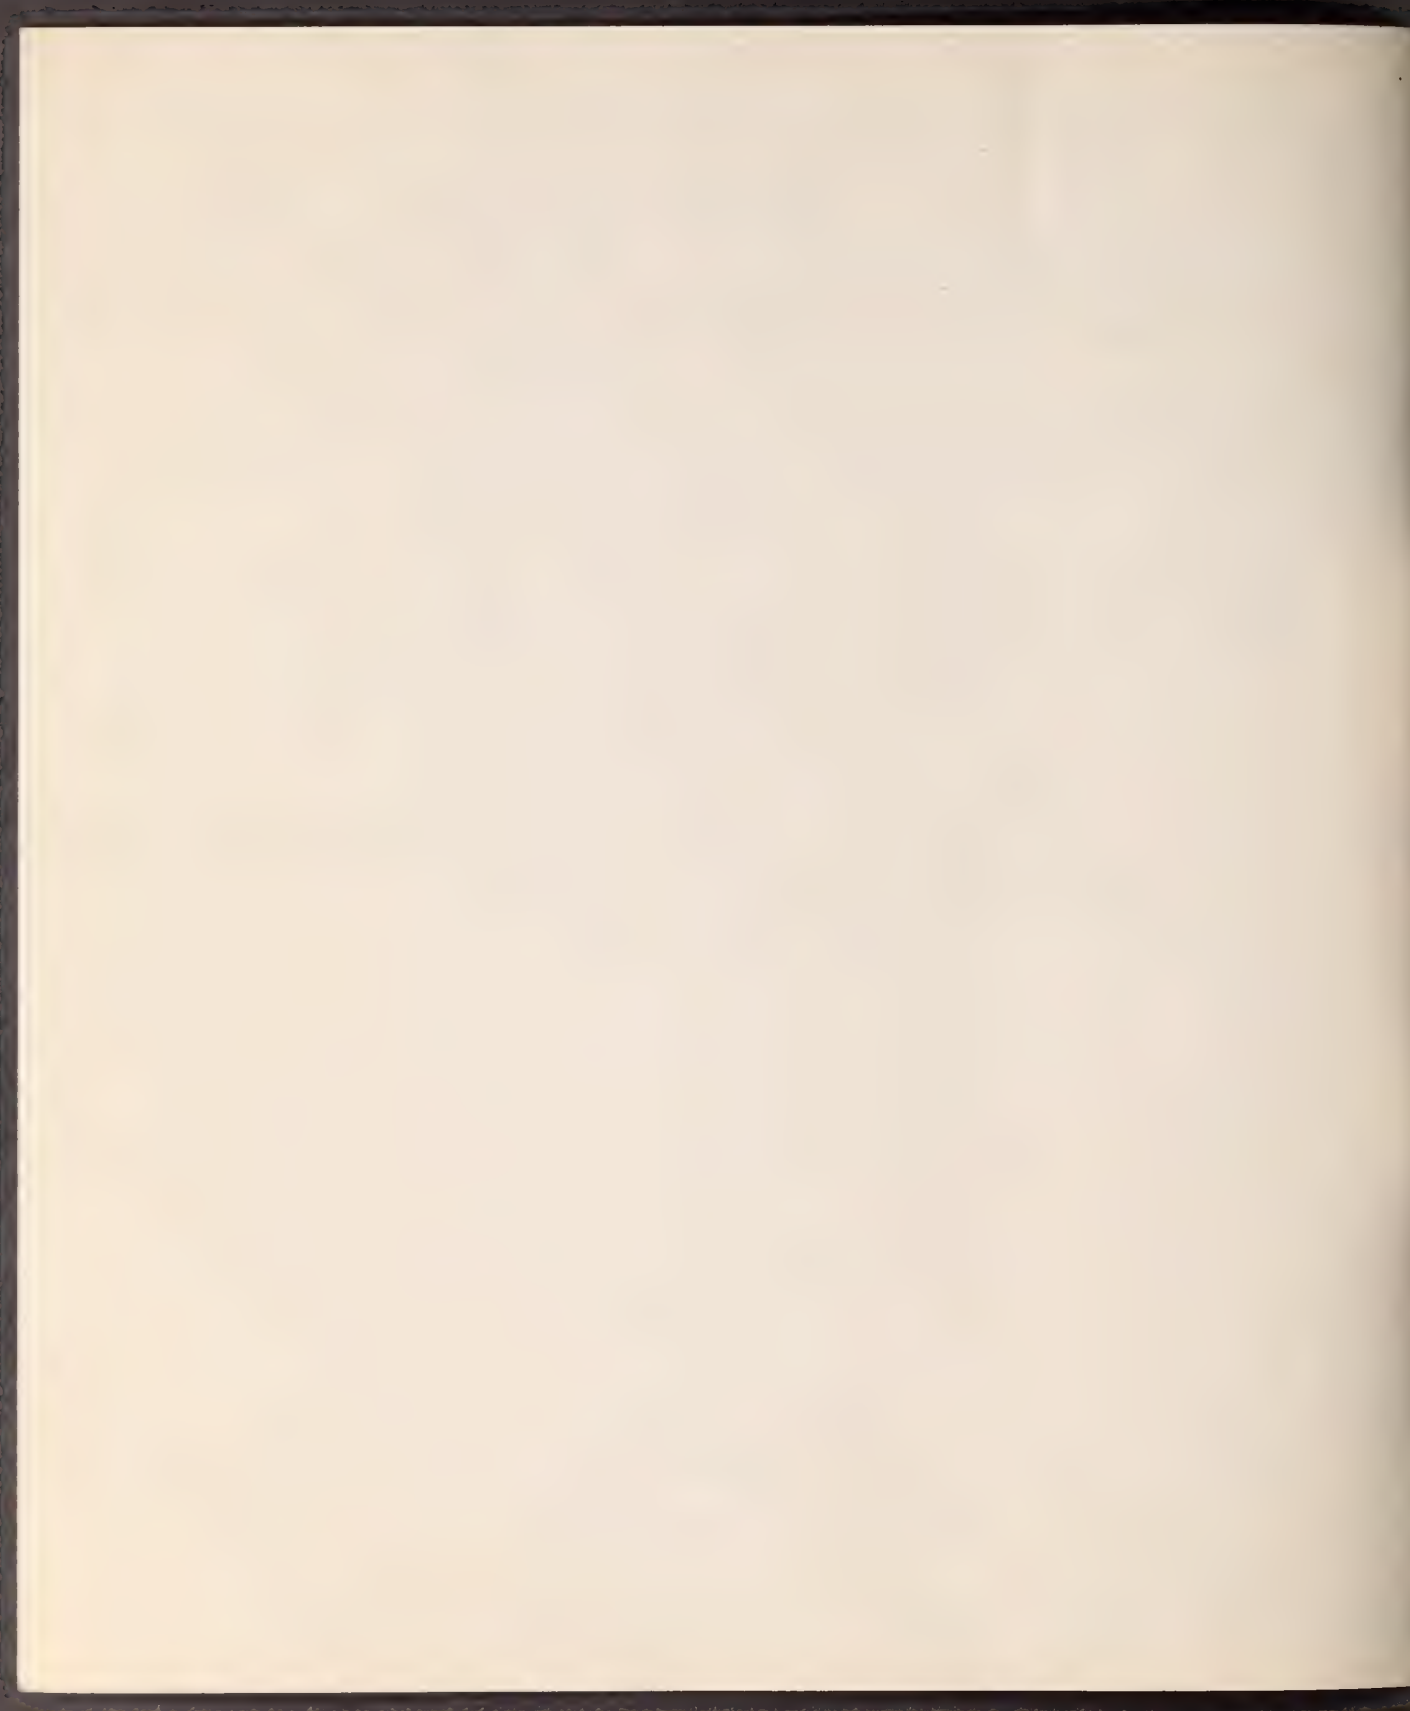

Dear Mr. Freeman. It's possible there was never a head stone for Elizabeth Forbes. but she is buried in Salem and passed on in Fenton at our home on river road. she was ill quite awhile mother cared for her. I was about 8 years old and recall clearly the circumstances. she either passed on Nov 11th was buried on 13th or passed few days before buried on 11th. It was my sister Beatrice birthday. - she often remarked how many things seem to happen in our family on that day for instance a 4 year old cousin he passed on soon after set fire to our up stairs playing with matches. then our own mother died 11-55 Nov 11th. 1926.

In the old records in Fenton. if you could locate them at that time. Morrison - Kemey were I believe the only undertakers in town. I believe I can find out where Cassie Alexander (Cassie Couch) she remarried) lived and died also her last marriage name. (he died) she's only passed on a few years ago. I'm sure there would be a record. she lived in New Ontario.

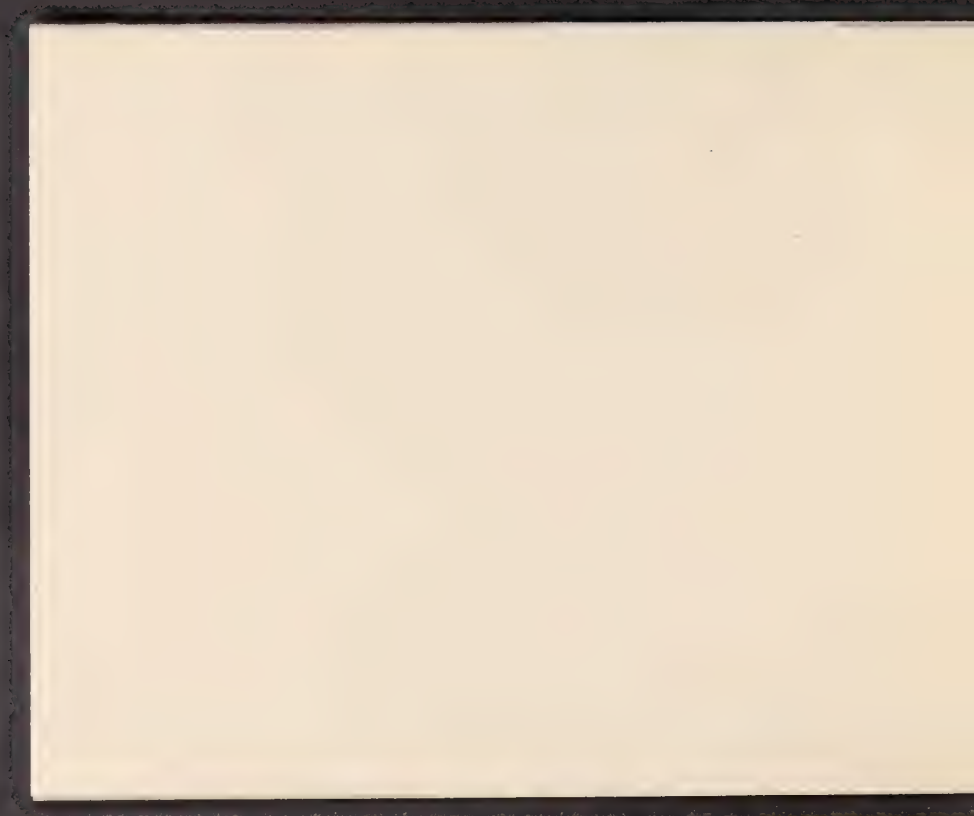

My brother told me just about where. Elizabeth was buried. but as I mentioned in previous letter ground was too wet. he and my sister Mabel Cleveland both say she had a head stone. I heard this discussed as a child so if there was a slip up it's too bad. she left enough for all that. I will continue to help in any way possible. (money)

We spent Sunday evening at Vera's all seemed very well. Orville working out of town. comes home & looks every week end. I'll write again as soon as I have more dates.

Sincerely. Mabel E. Engle.

Dear Sir. I'm still awaiting some more dates. Mrs. Hunter has not answered my letter. Had two from Truman Alexander expecting another. His brother Erwan's wife has some dates in family bible. I think she remarried after Erwan passing. about 6. years ago. I'm going to try to get in touch with her.

I was talking to Vera few weeks ago. she knows about the Sayers mentioned in one of your letters. I believe Mand Sayers lives in either Welland or Wellington. I believe its latter name. We plan to go to Trenton next Friday Nov 3rd. will stay in Toronto over night. arriving in Trenton about noon. Sat. 4th. I plan to see Will Forbes. I'm quite sure he will have some dates. I'm enclosing this paper. it may not be of any value. I did not destroy it as there seems to be a link between our family - that of Millicent Rogers. Yours Truly,

Dear Mr. Greenough.

Letter received January 1st
about your mother's name is that
close chapter. My mother's maiden name
was Sarah Jane Johnson. Born Dec.
1st. 1842. My father William Henry
Jones July 21st. 1844. I'll ask my
sister Daisy May, to find out if she
knows where they were born. The
only Elizabeth Jones I have any
recollection of, was a sister of father
she died at our home in Linton about
1842 or 3. I think may would know
as buried at Calverton. In sure she
was a hard stone. Yes my father was
often referred to as 'Willie'.

New years day 42 Bill.

Went had dinner at your home & spent
5 days with us at your home. She is often
to do research work - said you had

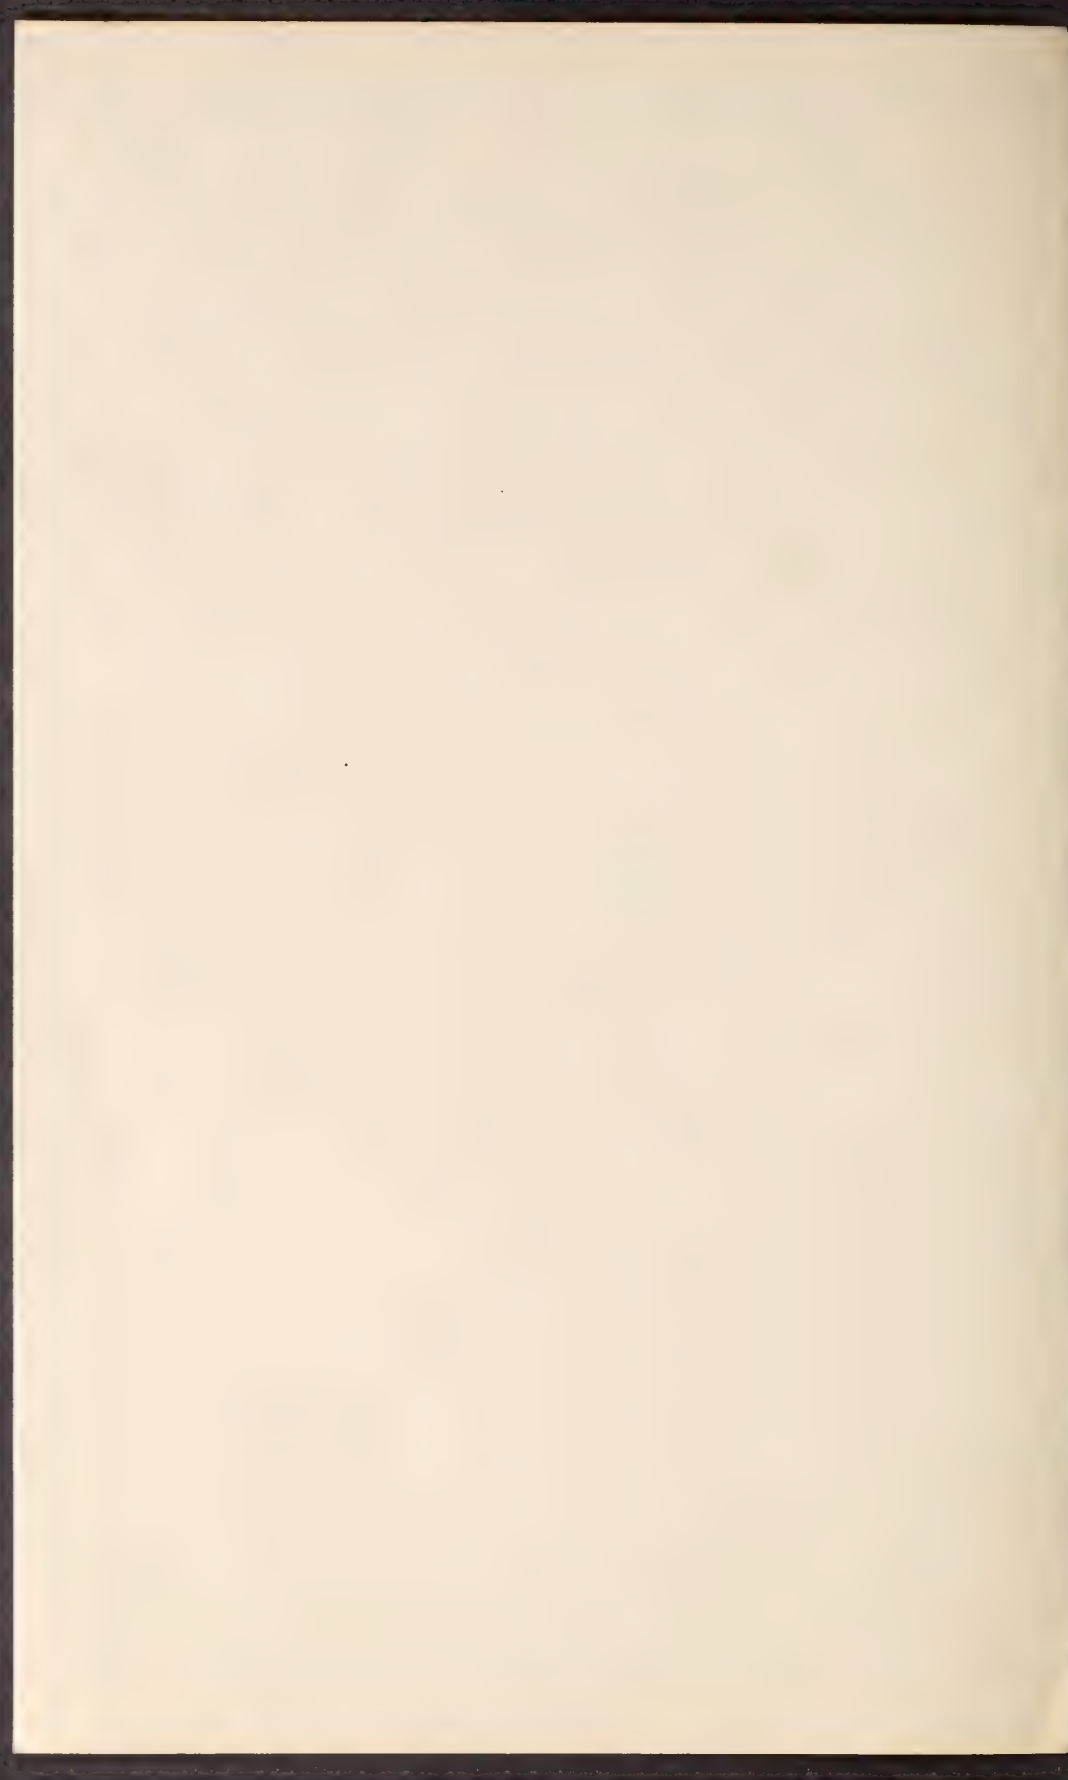

spent a great deal of time. I do so
admire your perseverance and hope
some time I can read this record.

The Elizabeth Stokes
referred to is father's sister, never ^{married}
though she had a daughter Rose who
passed on before 1910. I ask you if
she remembers date. Rose married
Walter Braddonell, all are gone except
Winnie. I believe she has a phone
it's possible her mother Rose left
some old papers. I assure you I'll
assist in any way possible.

I think that about covers
all up to date don't hesitate to ask
questions. I have plenty of time while
commencing to answer your inquiry.

continued interest and sincere
desire to be of assistance.

Dear Mrs. Freeman, letter received thanks so much. I'm only too happy to cooperate and I'm sure can be of considerable help. My sister Mae (Mrs. Cleveland) she will be 68 on Dec. will arrive on the Schuyl. 8-40 p. m. today to be here while I have an operation for removal gall stones. This need cause no alarm as I'm perfectly healthy otherwise and I'll only be in the hospital ^{pt.} 10 days, meanwhile I'm sure Mae can give me considerable information. I will keep in constant touch and will if necessary come to Brighton when fully recovered.

I gave Maria Fuller Forbes & Winter early in this year. was supposed (address) when she told me one week later she had not sent it. Then she later on told me she had done so. Maria was Uncle James daughter.

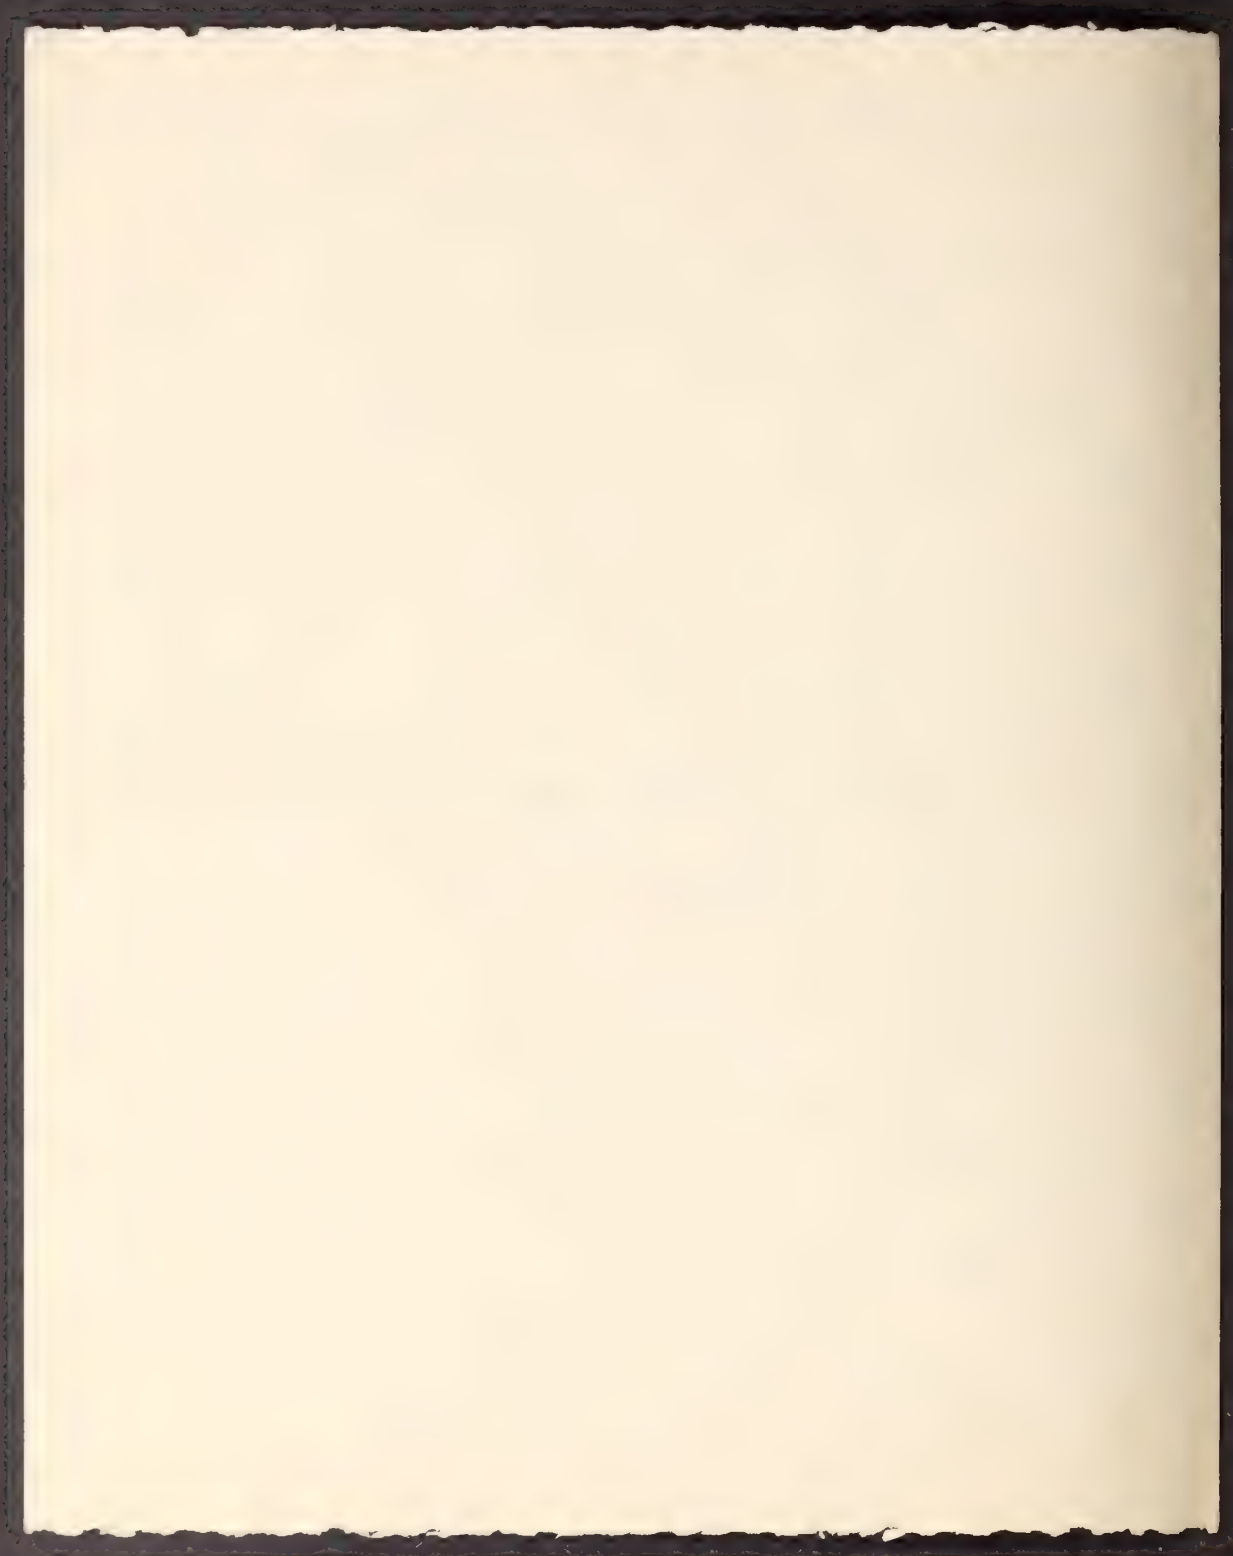

2.

Jim brother Will lives other side of tracks
across from Jim Rogers place in a big
house, brick & blue. Here is the address.

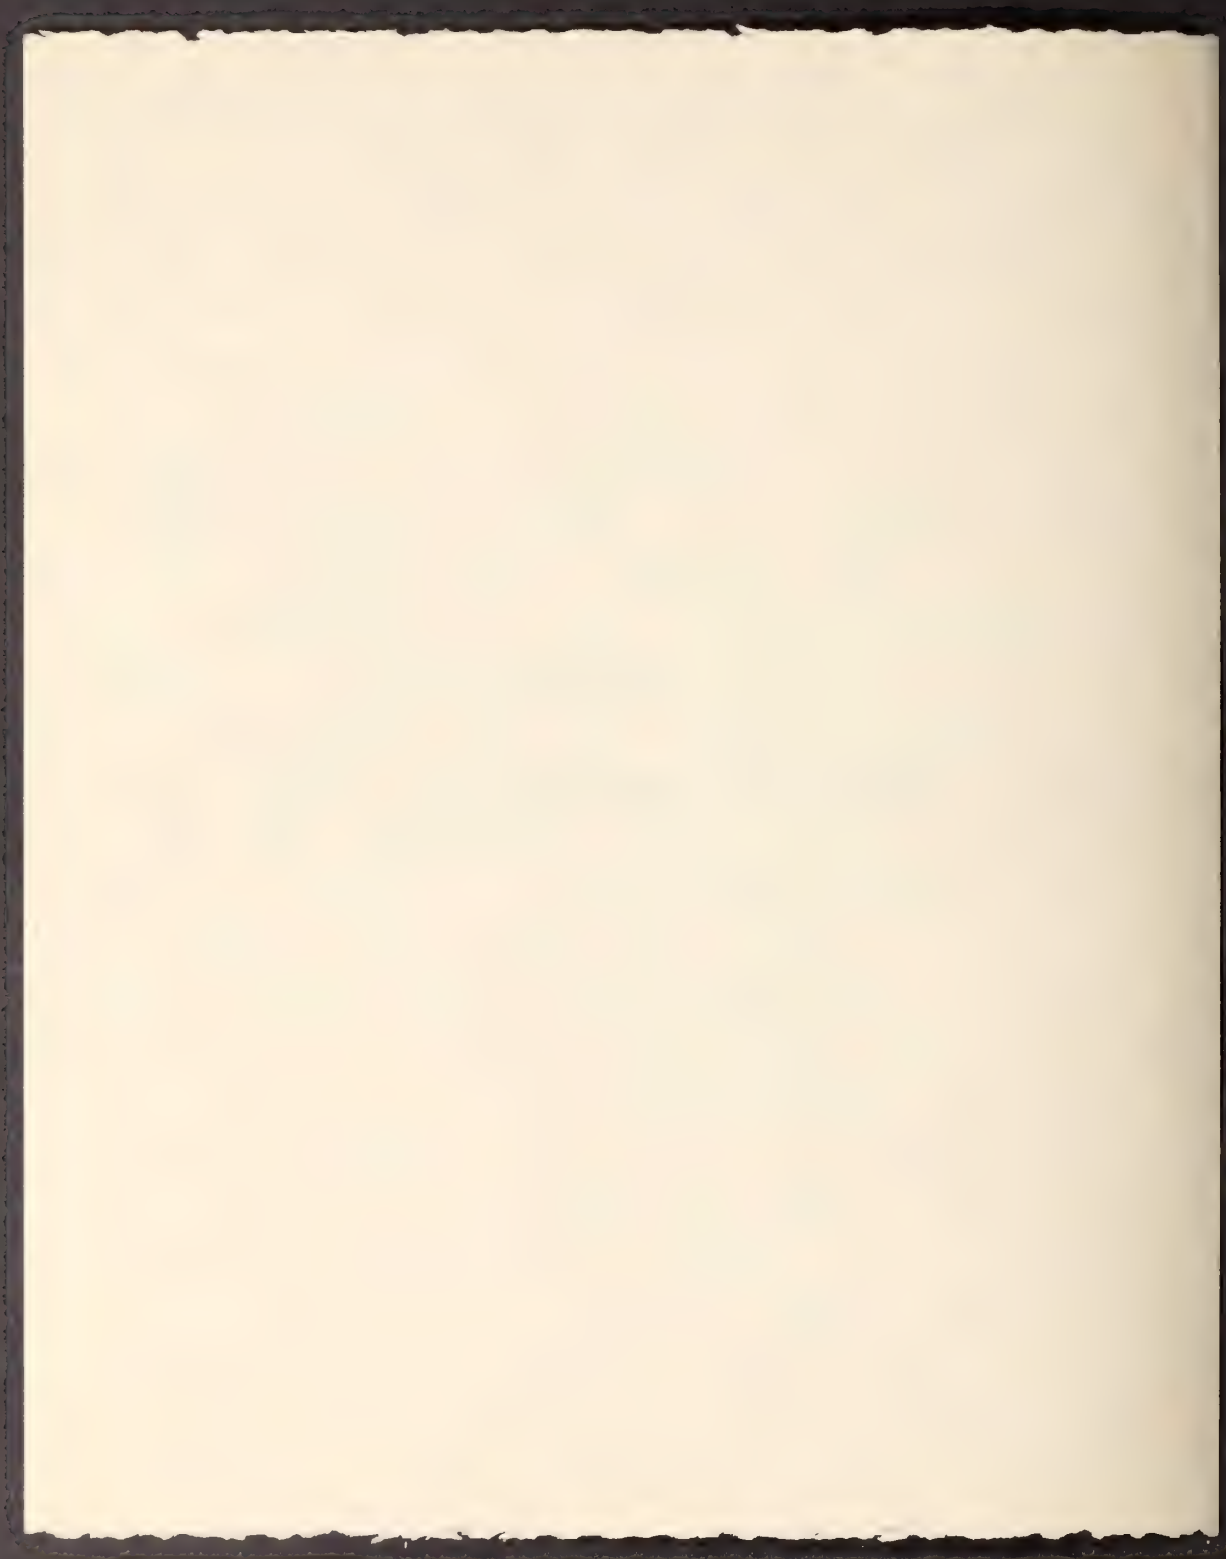

Mrs. William Benton.

132 N. Winchester Street
of Toronto Ont.

This is
her son Russell's home. Its a chance she
can help her to my claim. William has
an older brother Warner & older if he's
still living he might be of assistance. I've
not seen him 1924. he bought a few
acres of land some where in New Ontario
(from Catherine Couch) Alexander Uncle
Archies daughter. she visited Rochester in
27. came to Cobourg to see me later on
Rochester. For sure William or Will could
tell you more of this. Braddock Heights our

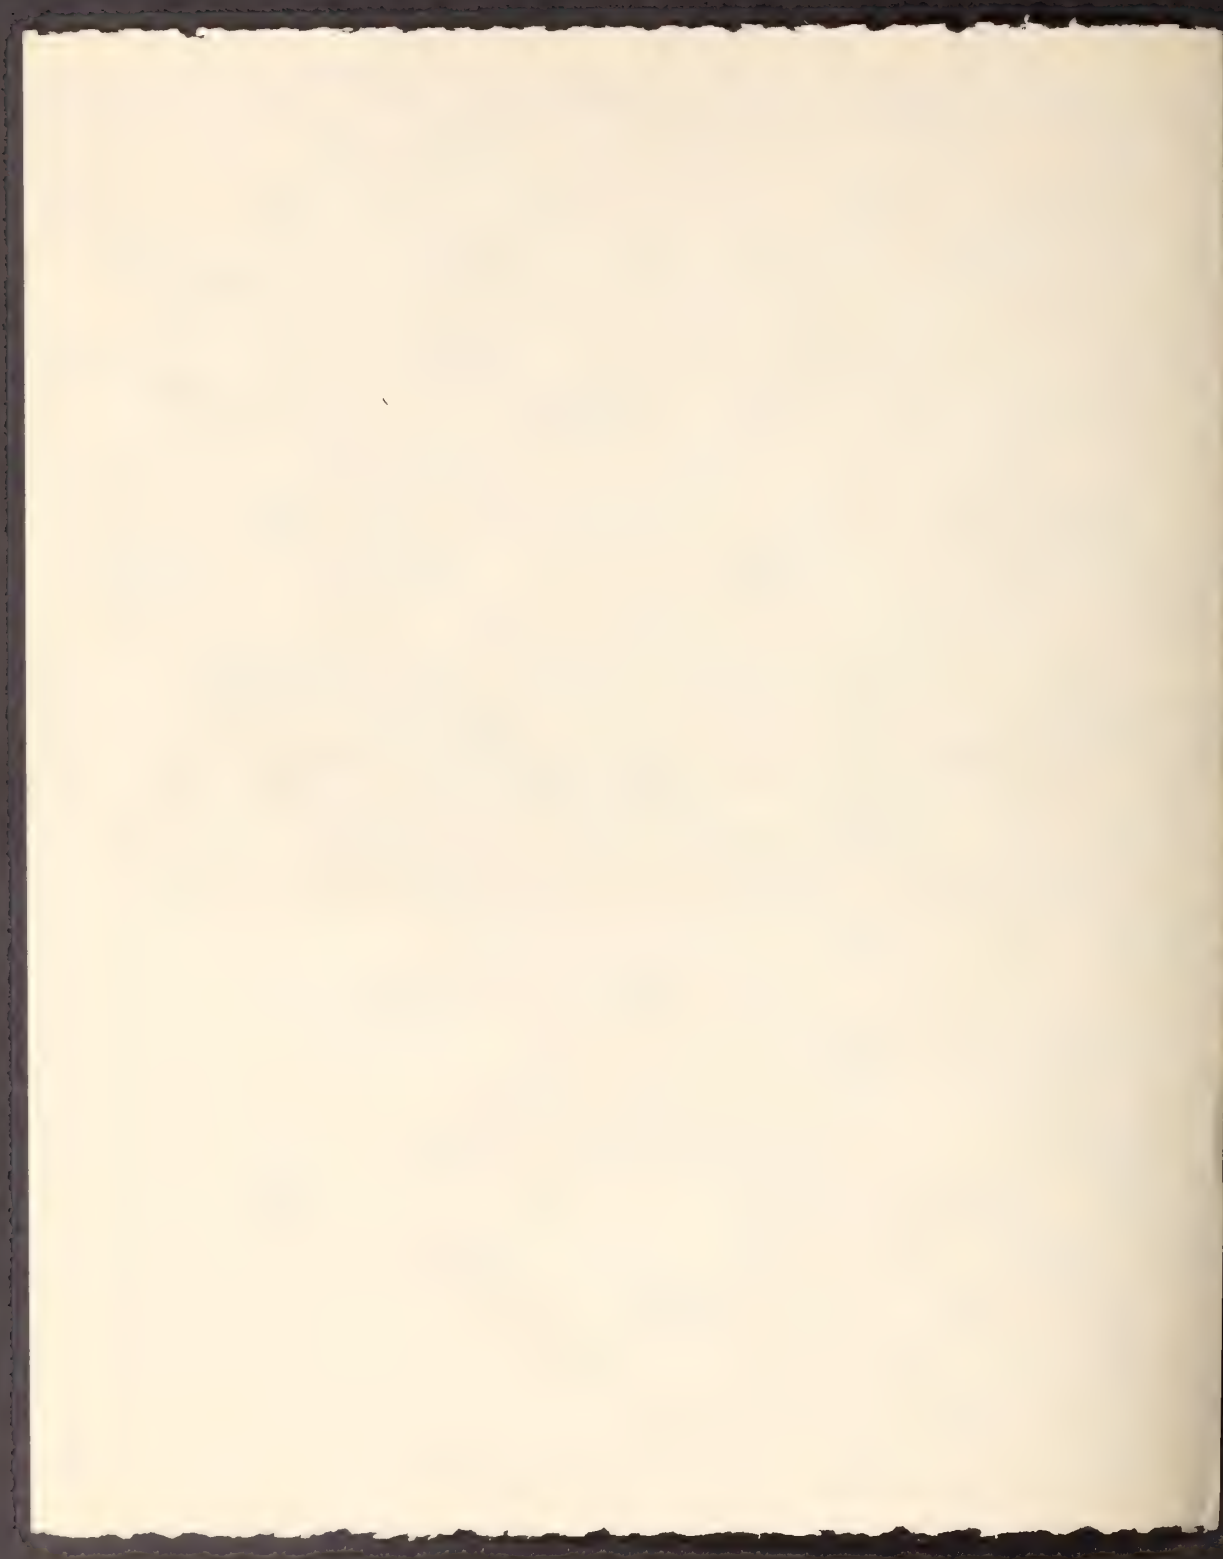

home is about 16 miles from Rochester.
 Now, my husband is employed in city
 drives every day. I gave John worked in
 a bakery in Brighton saved a little money
 he was very young. he came home. I presume
 to Cobourg said good bye to his family
 Aunt Colista & Aunt Mary walked with
 him ^{a little way} as children do. he was never seen or
 heard from again. It was believed he
 never left Brighton, and was murdered
 for this money. he was going to take a
 boat at Brighton for some where, to
 better his fortunes. mother & father often
 told us that there was a tough family
 living in or near Brighton, and once when
 I was a very young girl, about 12. Father
 consulted an old man in Trenton name
 Doherty, very poor person, who used to go
 in a trance, and tell some very accurate
 things. he would not take money.

and would only do this in return. So, he told Dad I was near done away with by his family & was buried in cellar. He even described the place even some trees. Dad always thought he might dig for the remains. But never had the heart. When Aunt Elizabeth lived here in Rochester, she advertised quite extensively & even had the Salvation Army try to locate him, all to no avail. My mother told me this also Aunt Bobbie.

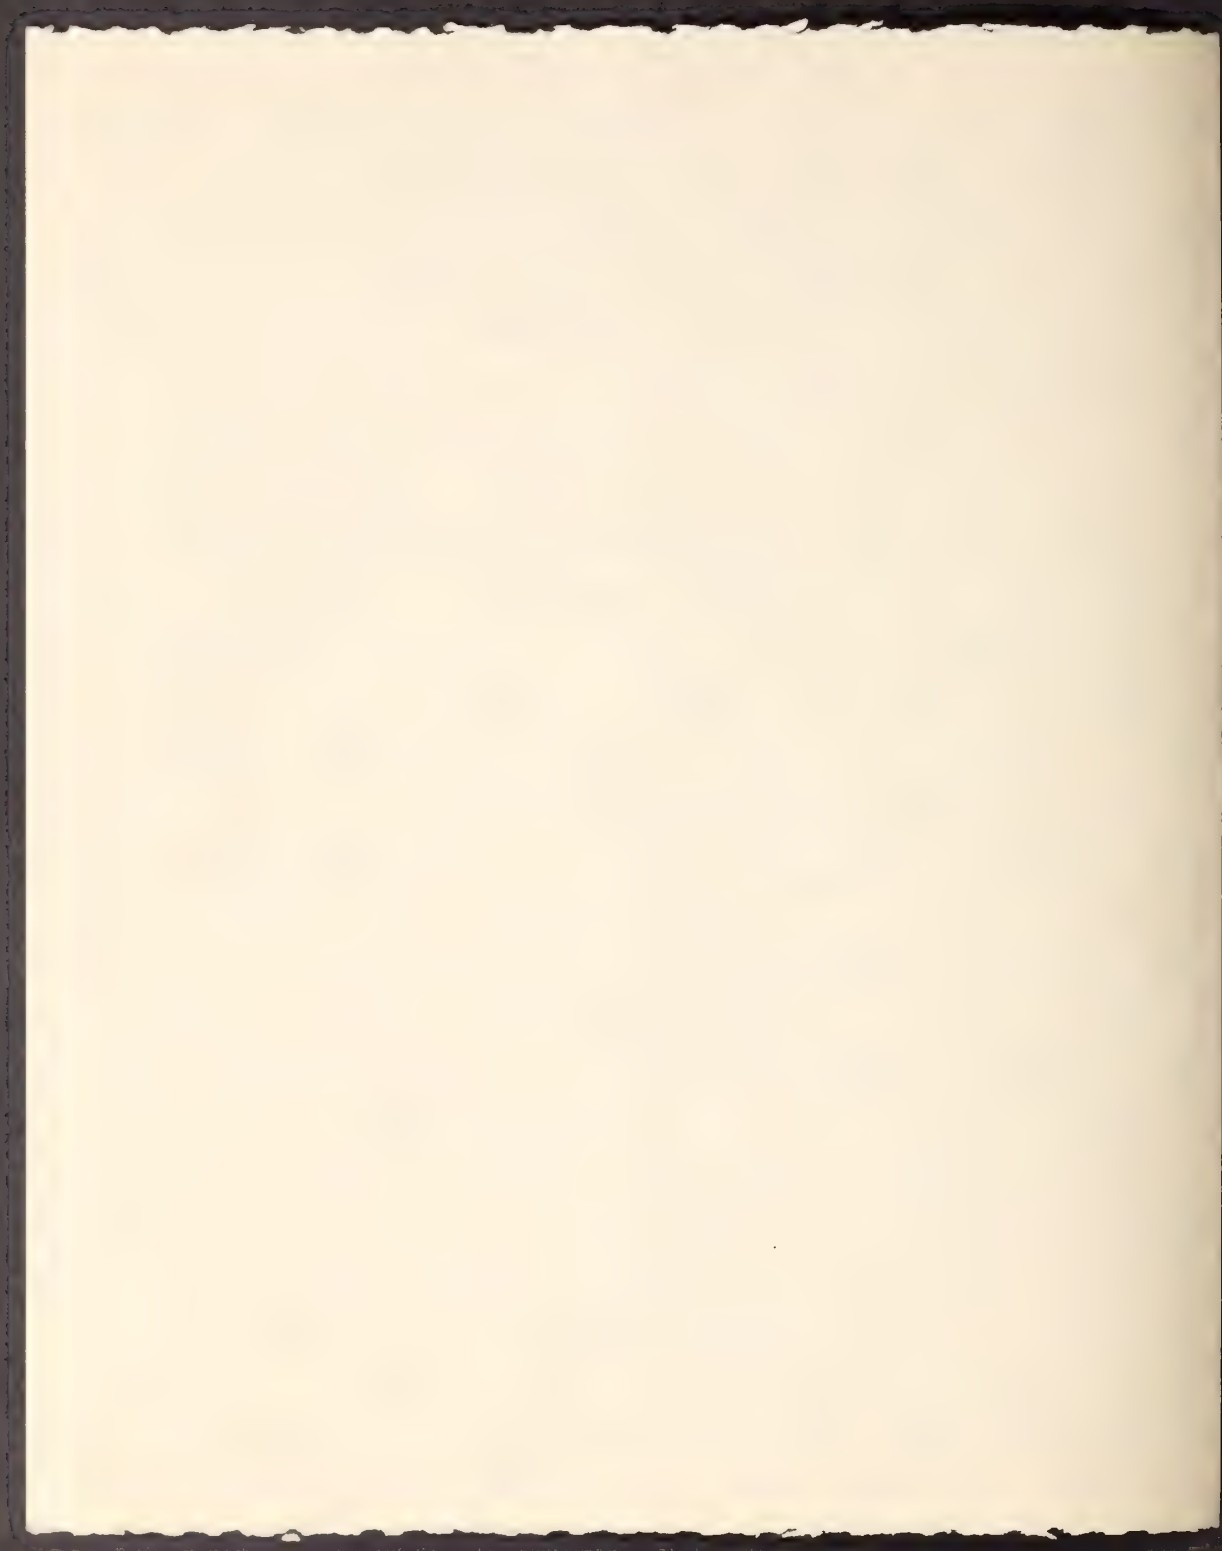

Mother had Catherine Jackson pictures many years finally done away with them I remember very clearly just how they looked. The letter is in part somewhat gruesome. please excuse it as I'm only striving to be of assistance. I believe that all for this time I'll mention more make notes etc. Bye Bye. Thanks again, Mrs. Charles Engle

Dear Sir, I further much brought to light a
copy of the enclosed letter. I am sending
another copy to you I think Jim Rogers
should send it to me many years ago. My
memory is not too clear on the point. I hope
to get to Canton this fall could talk to
somebody better than write. I will be in contact
during 25th. with hope full certificate of
my immediate family. I am also sending a
book and would like it returned some
time in future. Emerson is mentioned in the
book, but I do not know whether it was
written from there, rather one of the men who
lived there or perhaps it was their parents
lived 10 years on a tract of land some where
or near vicinity of Bay of Quinte. when it
was claimed by some one they owned
it of course. so I think the might have
been. I have a letter from my sister

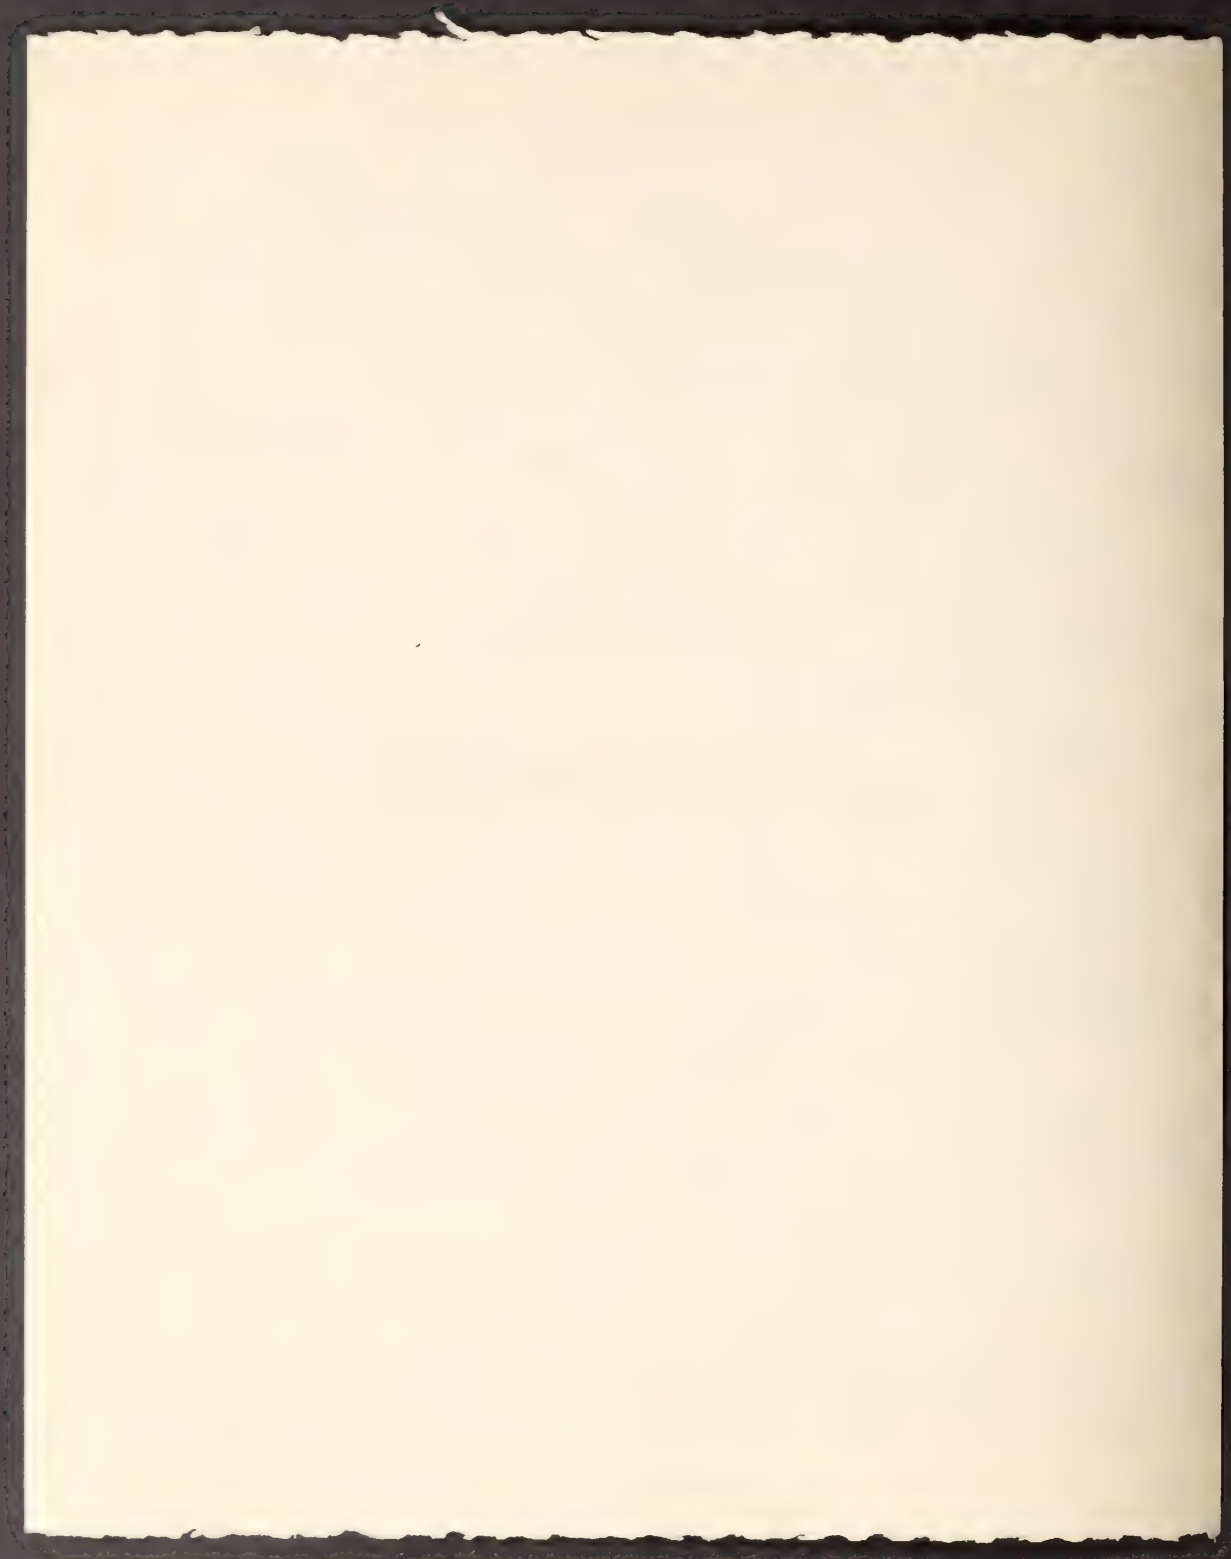

Tuesday. 8-25-44.

Dear Sir. Here are the birth dates I
promised to mail today. I've written to
my brother in Trenton and I think he will
answer my questions. He loves my mother.
I'm very sure. Tell me he should remember
some thing of Catherine's for me for I
am little older than herself.

You will note some
of my children are 16-18 months in between.
I figured this out for me before she
returned to Philadelphia. I hope my humble
efforts have been of assistance. Please don't
hesitate to ask questions I'll see many in
Philadelphia next end of labor day. I'll
make mistakes as I'm feeling much better
and feel well enough to drive there.
Yours truly,

Michael E. England.

Daddy may remember when they lived at
 Coburg as a small child they visited there.
 The old house would be gone & probably some
 new neighbor named Gorthner. I had
 a new house. It possible descendants may be
 of assistance. I believe Grandma Gorthner was
 born in 1800. died 1881. not for sure of this.

My brother Darwin & others.

I would remember more of our family.
 I'll write him a letter. Best of all
 if I can get over it. The poor situation.

I do know better made many

to Prince Edward & I had reason to
 believe many of it. I settled that the children
 all remember. Further telling us, we
 owned a lot of land, about N.J. City north
 and as I grew older, I would just what to
 do in mind. I advise your presence. There is
 a truly big mistake. You should leave
 better later not later than Tuesday 14th.

Sincerely M. E. G. 1881.

Please read the first I presume
you the paper referred to was for me always
thought his name was Joseph.

Dear Sir. Last night I was clearing out some old news papers. and came across the enclosed. It occurred to me. that said paper might be of passing interest so I'm sending it on. You need not return it. but I would like to know if it reached. Brighton. as I'm not quite sure how to address it. How is the family history coming along. I would like to read record. my grandmother and grandfather laid at Colbourne. in 1872. and I believe several years previous. mother once told me. Grandma passed on. 1881. I am William Henry. Charles youngest daughter. I have all our family births in an old bible. should you need these for the record. I will copy them any time. I keep this bible in a safe deposit box at Rochester Savings Bank. I considered it valuable enough to safeguard with other legal papers. as its the only known record. of our births. I believe that about covers every thing.

Dear Ray:-

I am so sorry I have been
so long answering your letter. I
am well. Aunt Sarah has been so
remarkable to always be so well as
she is. He seemed to have had
a cold or colds and flu this winter,
but was serious but enough to keep
us happy and everything we
did seemed an effort.

Both Grandmothers are gone, we
miss them so much. It still
doesn't seem real. I am so glad
I got over when Mother took in
and enjoyed her visit. But she
didn't last time a bit. I was sorry
not to have seen her then.

3.
Roger is still in the area, since it
is more not there and in his letter
yesterday he asked what it was like
to sit down and not have cockroaches
crawl all over him. But he likes it
fine. He was septen & near and
Saturday and on the Friday night he
went up to Eastman Kodak and got
a job. Was from 10 to 12:30
and on the day Saturday, all
the week is supposed to work and
summer holidays, etc. I am
now I told her all about it, his
about interest in the resort. I
will work as on she is only going
to see the music once this week.
I am not sure yet, but I am
certainly to be able to look after,
have the same summer in that in
the sun and water which is fine.

2.

The next day after Mother Locklin's funeral, Gracie and the girls had to go to the village on business and I intended coming as far as - some place and having a good afternoon and Sunday school, but it seemed as if the summer was and better suited - somewhat better on my business.

There were some questions asked, Gracie said late Nov. 1885. Marie's name was Olive Sylvia Marie. Marie could not much information but she thought the Carter could. She said her address was as usual gave it to me. So sorry not to have gotten this off her.

Dear Ray:

Several weeks ago I wrote you relative to the information you requested on your book. Since you haven't replied I am wondering whether you received it, whether everything is well with Aunt Sarah, or if all is well with you.

I have taken on a huge new project so that there will be only a few weeks' ease up, so if you still need the information, and need it through me, I wish you would drop me a line asking specifically what you need. I would then write the various places, and visit them on receipt of reply from them that they did have the information.

It would be nice to have such information as specific as possible.

We are losing our director at the boys and girls club into the Navy so that I have "inherited" the camp victory garden as well as the other big job, one of those teen-age programs. We shall be very much under the public eye during the initial stages. There is quite a bit of public speaking involved, etc. If it is successful, five more centers will open for such activity.

If the information is still needed, let me have as much time as possible so that it could be sandwiched in between activities. There is no doubt about not obtaining special librarian service.

Hope that Al is well with you and Aunt Sarah.

Did you know that Gladys is in the Yukon married?

Roger, Vera's boy is believed to be in South America (Navy). Nellie's two boys are just tops - one studying for medicine, still in Detroit I believe, and other in England. Just wrote him.

Wilfrid and Hazel are together in New York - and Vera's daughter works part time - so I guess this brings you up to date on the family.

Sincerely

Walter Rogers

P.S. I shall be very glad to do this for you - Phila. is very fertile from an historical viewpoint - and it would be good education, interesting, and of course, pertaining to the family.
